

We are happy to announce that agent auxiliary codes have been updated and inserted in Genesys.

What are Auxiliary (aux) codes in a call center?

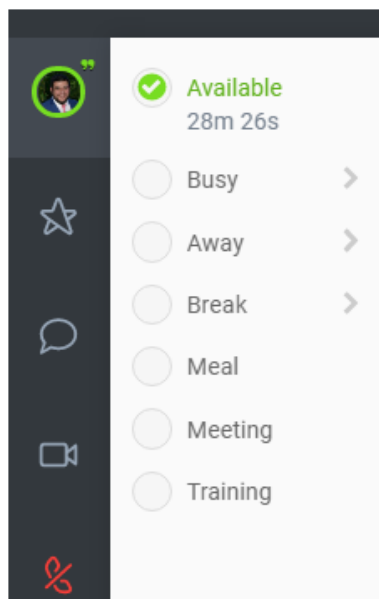

Aux codes are used to keep track of call center agent time that has been voluntarily used to not accept calls. More specifically, it's used to manage non-call activities of agents.

After evaluating the tasks and needs of our organization we have concluded to the below aux codes to be either updated or inserted in Genesys.

Aux Code - Genesys Status	Usage
Away - Personal Admin	Agent doing "personal" admin work not related to orders: reading blogs & emails, answering surveys
Away - System Issues	System issues causing agent not to being able to work (Headphones, VM, VPN etc)
Busy - ACW	Agent needing to take longer time to handle case that ACW provides
Busy - Other Ops Tasks	Agent working on tasks not through Genesys (Etrack, Support, ETG Esc etc)
Break - Personal	Agent on bathroom/water break
Break	Agent on paybreak
Meal	Agent on lunch break (Does not apply for Athens)
Meeting	Agent in team meeting , coaching sessions, 121's , Quality Sessions with QA
Training	Agent in upskill training, new hire training

Floor walking: Agent is assisting with new hire during their OTJ/production time. (Used only by **Coaches, FL coordinators**)

The aux codes can be found by clicking on your icon on the left bar.

If the list is not visible then please log out and back into Genesys and it should appear.
