Fast Track	<i>Yes, if only the hour has changed. For date changes, the product is invalid.</i>	<i>Yes, if only the hour has changed. For date changes, the product is invalid. PS) YY should remain the same</i>	Yes, if only the hour has changed. For date changes, the product is invalid.	Yes, if only the hour has changed. For date changes, the product is invalid.

*** Visa:** Some visas ask for the date of travel but the customer can still travel anytime he/she wants during the validity of the visa (1 or 2 years for example), they just ask the date for statistics. In that case there is nothing to do, we don't even have to change the date. Some countries, however, make the visa valid only during the actual trip, and those visas can not be modified once issued.
