

ETG is currently sending out a high amount of emails to our customers where we are asking them to get back to us with their bank details to be able to process their refunds.

The reason for the increased amount of emails is due to the long wait time to get the funds from the airlines, combined with our workload, which has resulted in many expired transactions in the PSP's. It is no longer possible to process the refund through them and therefore, we need to go ahead with a Bank transfer instead.

We could expect a high amount of customers calling due to these emails. They might be concerned or worried if these emails are actually sent from us. It is therefore important for all agents to know that we are sending these, and the emails are legit. There should be a note in Edwin from BO stating that this email has been sent from E-track.

The template used is the following: (standard template in Etrack)

Dear Sir/Madam,

We are contacting you because we need more information to process your refund.

More specifically, we require your bank details. Please provide us with your IBAN, BIC/SWIFT, the name of the bank and the card holder's name and home address.

Please write the IBAN number with dots or spaces after every third digit so it doesn't become encrypted.

You consent to the handling by following this link <@CONTACTFORMLINK>

Best regards,

<@USERFULLNAME>
