NACO	The "Modify" reason is utilized when a customer requests a name correction that requires a refund of the old ticket (we keep the funds) and issuing a new ticket. Alternatively, it can also be used in the opposite scenario where a new ticket is issued first and then a refund is processed (we keep the funds). In any case, there is NO payout to customers EVER. It is used only to claim the tickets and the refund goes to ETG to issue the new ticket. Also, NOT to be used if the NACO process fails for any reason	Yes	FL
EMD/TKT - Refund to us	The "Modify" reason - “ <i>EMD/TKT - Refund to us</i> ” should be used when we have proceeded with an involuntary reissue, but the airline is unable to associate the EMD to the new reissued ticket, for the RVSR scenario, and dupe EMD/ticket issuance. Then we need to claim the old EMD/ticket and issue a new one for the new tickets (if needed). No payout to be processed to the customer.	Yes	SC, Fulfillment , Reconciliation
EMD - Refund to customer	The "Modify" reason - “ <i>EMD - Refund to customer</i> ” should be used when we have proceeded with an involuntary reissue, but the airline is unable to associate the EMD to the new reissued ticket, and we cannot issue a new EMD. Then we need to claim and processed the EMD payout to the customer.	Yes	SC

Cancel button:
When a customer confirms **the cancellation of a ticket that is non-refundable and no refund will be processed to the customer** always Cancel the order by **using the Cancel button** with reason: "Ticket rules- no refund to customer", and send an email to the customer by using the Edvin email template: "CXL conf - non ref. 11.A ".

When we want to Cancel only one of the passengers with cancellation reason: 'ticket rules - no refund to customer' then the process is:

1. Split
2. Link pnr in Edvin
3. Press the change button and select 'cancel part of order'.
