

If a customer wants rebooking to another flight - refer to an Airline

When a customer contacts us after departure, claiming flight was cancelled follow these steps if customer wants refund.

Active pnr:

Check ticket status.

If status is open - queue to SC queue in GDS with information from customer that flight was cancelled and that we need to get an authorisation for refund from the airline.

Amadeus - QE/STOSG38AA/57C2

SABRE - QP/DZ53260/11

Our service fee for refund as per pricelist in Edvin.

Back office will refund to customer if airline approves refund application.

PNR no longer active:

Find ticket numbers in Edvin.

Open up ticket(s) in GDS. (Command TWD/TKT... or WETR*T...) Check ticket status.

If status is open - make notes in Edvin and run smartkey RFDM i Amadeus and queue to SC queue in GDS with information from customer that flight was cancelled and that we need to get an authorisation for refund from the airline.

Our service fee for refund as per pricelist in Edvin.

Back office will refund to customer if airline approves refund application.

In case you wish to check the history of the PNR, which is no longer active, use the below commands:

Amadeus : RPP/RLC-(PNR number) ,and then -> RPP/RHA for history

Sabre : *XXXX-(PNR number)-P ,and then MD

Search for flight history in FlightStats:

If you want to check if the flight was delayed or cancelled, and you can't see it with DO-command in Amadeus, you can search for flight history on FlightStats: <https://www.flightstats.com/> You will need an account which must be made by FL - approach your supervisor if this ever comes up.

After you have logged in you click "Historical flight status":
