

- *Airlines active booked through Tripstack: BA, IB, SQ, LA, JJ, PC, TP*
- *Airlines active booked through Farelogix: LH, LX, OS, SN*
- *Airlines active booked through Tripstack with PB handling in Farelogix: OA, A3, AA, EK*
- *Airlines active booked through Amadeus NDCx : AF, KLM, AV, LO, AY, SK*

*****Before proceeding with the next steps always check Edvin docs for any exceptions *****

An automation has been developed for Amadeus NDCx, Tripstack and Farelogix (except UA).

- **Ticket rules-taxes**
- **Ticket rules-airline fee**

The automation will proceed with actions when running the above-mentioned cancellation reasons via the **"Modify order"** button.

- **Delete segments**
- **Claim of ticket(s)**

The automation **cannot be used for orders containing EMD and for partial refunds (partially used or split).**

Please find below the step-by-step process.

1. For scenarios where the above airlines are through Portals and the customer confirms to proceed with cancellation as per ticket rules, the agent should not proceed with any manual actions in the portal.
2. Run **"Modify order"** with cancellation reason **"Ticket rules-airline fee"** or **"Ticket rules-taxes"** depending on the applicable fare rules. If there is a need to split (partial cancellation) then you need to proceed manually by following the instructions under the [Portals section](#).
3. Follow all necessary steps in Modify order as per usual routine.
4. If the automation is active for the airline then the checklist is the one below (only **"Closed open cases in Etrack"**).

Please confirm that the following tasks have been completed before proceeding with the refund:

- ☐ Closed all open cases in Etrack

This refund case will have a fee of **45.00 USD**

- ☐ I have informed the customer about the refund fee

Important! If not, then you need to proceed with the claim manually by following the external portal step for the dedicated carrier.

When the claim automation is not possible the Modify Order has the below description:

Modify order - Confirm

Please confirm that the following tasks have been completed before proceeding with the refund:

- ☐ Added ghost line in GDS
- ☐ Closed all open cases in Etrack
- ☐ Cancelled segments in GDS

- 5. Check if the automatic claim of tickets was successful or failed.
- 6. If the automation was successful, send the confirmation cancellation email applicable to the scenario.

☐	2023-11-16 16:55 System Internal		3: Backend / 16: Backend UPA
			1:Vol rfd / 1: Refund pending SUCCESS Reason: Ticket rules - taxes Automatic cancellation of segments was done successfully for PNR: 38 Automatic addition of ghost line was done successfully for PNR: 38.

- 7. If the automation has failed, FL agents do not need to take any further action.

Any failed orders from the claim automation will end up in a specific queue which is handled by a dedicated team.

☐	2023-11-16 16:55 System Internal		3: Backend / 16: Backend UPA
			1:Vol rfd / 1: Refund pending FAILED Reason: Ticket rules - taxes Automatic cancellation of segments failed for PNR: P8 Automatic addition of ghost line failed for PNR: [FarelogixException while attempting Farelogix call 'OrderRetrieve': FarelogixFailureInfo: FarelogixResponseErrorInfo{errorCode='325', errorDescription='NDC Order discrepancy error. Order has been modified externally. Use FLX API to display PNR'}]]
