Question

No linked steps

In regards to the fee restructurings (implemented 4th/5th of July 2022 and 27th of September 2022), the applicability of the fees is subject to the moment, when the request is fulfilled.

Therefore if the passenger contacts us after the market's fees have been updated, the new structure applies regardless of when the booking was created. If no action has been confirmed by the passenger, the new applicable fee shall be communicated.

For some particular orders, the total of the service fee may be higher than originally informed which can raise customer's complaint. We expect this to possibly happen in below scenarios:

1. For requests initiated **before 4th of July:**
FM/SC related refund requests for orders including more than two passengers
2. For requests initiated **before 27th of September:**
For any voluntary requests

The below process shall be followed **ONLY** when:

1. You had clearly informed the customer about currently applicable fees
 - a. Do **NOT** refer to the fee restructuring, just inform the customer about currently applicable fees
2. Customer claims that he/she was informed about different service fee value and/or the currently given fee is higher
3. Indeed the customer has contacted us before the change in service fee configuration and we have informed him/her about the back-then-applicable fees
 - a. Either an Errand about previous request or an email correspondence with stated service fee needs to be retrievable in regards to this order

If the above criteria are met, please follow below steps:

Solution

Parent step: 2

Rebooking related requests

ATTENTION: Below guidelines apply only to complaints related to voluntary fees restructuring implemented of the 27th of September 2022. There should be no pending cases related to previous restructuring.

You don't have the possibility to amend the value of the applicable service fee in *Add on cart* in Edwin. Therefore, regardless of the payment method, follow below steps during creating the *Add on cart*, if you need to apply the fees as per the previously applicable fees structure.

1. Regardless the type of the request, choose the **Fee complaint** product in *Our Service Fee* tab in your *Add on cart*.

IMPORTANT: If any Airline cost is applicable, you should follow the standard routines and select the product relevant to the request!

2. Check the previously applicable pricelist [here](#), pick the correct service fee amount in local currency and multiply by the number of passengers, which should be charged.
3. Add the calculated total for all passengers in the blank field of **Fee complaint** product:
3. Add mandatory note **Old change fee applied - XXXX {local currency} per pax** in *Order note* field:

Cancellation related requests

Follow below steps if you need to apply the fees as per the previously applicable service fees structure, where the amount and currency is reflecting the pricelist [here](#).

1. During running the modify order button:

Include mandatory note in *Other info to BO* field:

- For cancellation request initiated before 4th/5th July 2022 and for FM/SC cancellation fee complaint insert: ***Old cancellation fee applies - 30 EUR per order***
- For cancellation requests initiated before 27th September 2022 and for any voluntary cancellation fee complaint insert: ***Old cancellation fee applies - XX {currency} per person*** where the amount and currency is reflecting the pricelist [here](#).

2. Use the designated label **Old cancellation fee** via *Refund* tab in Edvin, as per the routine for Escalations for details check [here](#).

ATTENTION: If you DON'T escalate the order with the above label or you DON'T insert the clear note about the applicable amount per order, the payout will not be processed correctly!

By using the label, the order will be excluded from payout automations and handled manually by the SL agent. Therefore the service fee needs to be clearly stated in the *Other info to BO* note.
