2. Click on either Roundtrip or one way depending on the type of rebooking.
Add the departure and arrival airport, rebooking date, and click on **"Air availability"**:

3. Choose the same booking class if available, or if not available, the next available higher bookings class, (the fare can't be lower than the original fare.) Click on the **shopping cart** to add the segments.

4. - For one-way ticket:

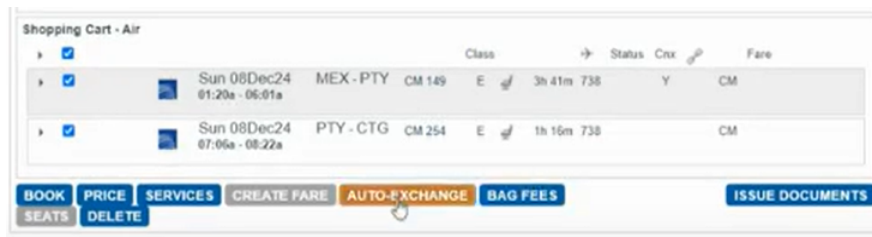

Pin the Booked flight segments you want to exchange and activate the check box for the flight segments that you want to price for the ticket exchange.

To start the exchange process click **Auto-Exchange**.

Then, pin the flight to be exchanged and mark the ones you would like to keep in the booking before you click on **<Auto-Exchange>**.

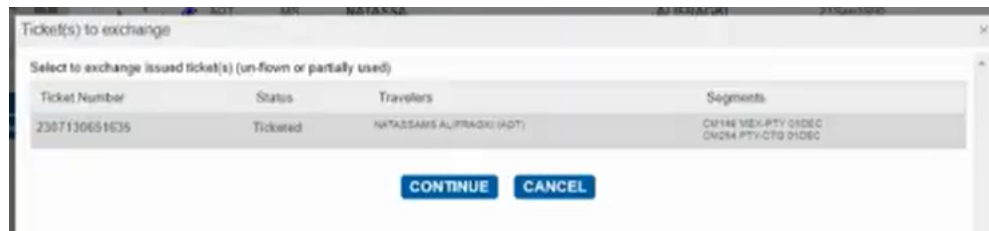

5. Click on "**Current Classes**" and "**Continue**" in order to see the pricing details.

11. Exchange is completed until the end in Farelogix. Do not send it to ticketing.

Important! Kindly note that all original tickets must be exchanged (if customers request so). The FL agents have to make sure that all original tickets are exchanged (If all passengers have agreed to rebook their flights). Ticket statuses will be: Exchanged & Ticketed.

This should be checked before deleting the unwanted segments. After the rebooking, the segment change will be done automatically by the system.

No need to use the rebooking wizard, please remember to change the order in Edvin.

12. Once the rebooking is confirmed, proceed with the rest actions in Edvin as per our normal routines as per this Shelf page: [Sync Trip button, under customer trip field.](#)

If this is not possible, use the old routine: Send email confirmation to customer from Edvin. Use template titled " External portal booking details " located under folder First Line-> Other ,and Register an Errand.

Partially used tickets:

Farelogix will automatically provide the rebooking cost for partially flown flights.

Ancillaries due to voluntary change:

Seats are not transferred to the new flight.

However, you can contact the CM Call Center, and they will assist you in assigning a new seat using the EMD.

If the new seat has a higher fare, passengers need to pay the difference.

If the baggage EMD is not transferred to the new flights, contact the CM Call Center.

Step 4

Solution

Parent step: 10

GDPR

Step by step:

- Check Edvin documents. A waiver is needed. Place the order on support.
- Before placing on support, the FL agents always need to inform the passengers that with this type of cancellation (GDPR), we can not guarantee any refund and we also need to give us the confirmation to proceed with the next steps (placing on support to cancel the flights and apply for refund). Thus, the support agents will not have to contact the customer again and inform about it.
- Place the case on support.
- The FL/FL Support agent should make sure that the segments are cancelled before the nonshow (after passenger's confirmation) and then proceed with the GDPR process: [Medical/Death/visa rejection refund exceptions](#)

Step 5

Solution

Parent step: 1

General info and login

General info and login

Copa Airlines booked through Farelogix/Sprk has Travelfusion as the technical provider.

Bookings are marked with the Travelfusion logo and Farelogix banner in Edvin.

All post-sales are managed through the Farelogix portal.

- For orders issued [before 27AUG24](#) the handling should go through CM Website (LCC).
It is not possible to open tickets/retrieve PNRs in Farelogix that don't belong to our IATA (e.g. LCC), so for these orders (issued before 27AUG24) the proper handling is according to the old processes (LCC - CM Website).
- For orders issued [on/after 27AUG24](#), the handling should go through Farelogix.
All CM orders display the following banner, therefore, please check the issuance date to determine the appropriate handling process.

  : Farelogix - must be handled by FL

Contact info:

Contact via usual channels (found in Edvin docs).

For tech issues, contact Farelogix.

How to access the portal:

Log in through this link: [Farelogix/SPRK](#).

All agents have received an email with credentials for PCC -> **BHIO** to Farelogix for CM.

“**BHIO**” is the main PCC for CM FLX and agents should always log in to this PCC to avoid any issues while managing their booking.

By logging in to the main PCC, the system will automatically jump over to any PCC that your booking is issued through without any action needed from the agent.

The different PCCs can be seen in the tab in the far right corner.

Kindly note that personal credentials have been shared, and, there is a limit of 20 minutes to activate the account. If the timeframe passed, please use the "**Forgot Password**" feature.

If you have not received credentials, please reach out to your team leader/manager. TL/manager creates jira to IT with agent name, surname, and email.

CM content via TF (Travelfusion) uses VAN for both primary and post-booking flow as FOP.

The content is available in the following IATAs:

- US IATA: 10570781 (USD) - **BHIO** in Farelogix

If you need to split a passenger from a reservation before making any cancellation or a rebooking:

- After you have verified that there is a phone number and email for each pax, click on the pax that you want to split out.
- Then click on the highlighted arrows to the right.

Procedure for Handling Invl Refunds

1. Document Verification in Edvin: The FL/SC agent is responsible for reviewing Edvin's documents to ensure that an involuntary refund is authorized in accordance with policy guidelines.
2. Deadline Check
 - Verify if there are any specific deadlines associated with processing this refund.
 - If yes, and it is close to the deadline as per airline policy, or SSR, or guide (*within 4 hours of the deadline*), then the agent should **prioritize the refund and manually handle the refund.**
 - If no deadlines are indicated, proceed with the following steps:
3. Handling Based on Original Travel Time:

- If Original Travel is **More than 4 Hours:**
 1. Update the Modify button accordingly, allowing SL to assume the case.
 2. Ensure any applicable waiver codes are documented clearly in the errands.
 3. Remove the segments if possible
 4. Send cancellation confirmation email from Edwin
- If Original Travel is **Within or Less than 4 Hours:**

Follow the manual handling refund routine and handle it.
