Question

Parent step: 1

The claim task has been moved to the SL team as of November 5, 2024.

Handling Based on Original Travel Time:

- If Original Travel is **more than 4 Hours**:

- Inform the customer about the Penalty and if the customer confirms the cancellation, delete the segments, and click on the "Modify" button accordingly, SL will continue and cancel the order in the Portal.

- If Original Travel is **within or Less than 4 Hours:**
Follow the standard refund routine as usual.

FL team will continue to:

- Handle urgent cases (clarification above)
- Void
- Check Rules and inform customers
- Placing on Support in case anything requires YY contact
- Delete Segments & Modify button (Automation will work - if it is available)
- Send a cancellation confirmation email.

Step 7

Solution

Parent step: 1

Split PNR

It is possible to split on the Portal.

This process should be used when you want to edit or cancel the itinerary for some of the passengers on a record locator, but not all passengers.

1. Click on the traveler (s) whose flights you want to edit or cancel:

#	Type	Title	First Name	Middle Name	Last Name	Date Of Birth	FF#
1	ADT	MS	CHERI		SMITH		
2	ADT	MR	JASON		SMITH		

If you want to select more than one traveler, hold down the CTRL key on your keyboard whilst you click on the names.

2. Click on the split reservation icon:

#	Type	Title	First Name	Middle Name	Last Name	Date Of Birth	FF#
1	ADT	MS	CHERI		SMITH		
2	ADT	MR	JASON		SMITH		

3. Click on 'Continue' to confirm:

Confirmation Required

Are you sure you want to split this Reservation?

Cancel

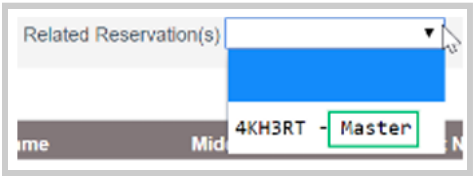

Continue

You can see that a new record locator has been created:

You can now make the required edits or cancel the booking.

The 'Related Reservation(s)' dropdown will show all the record locators linked to this one.

The original one will have **'Master'** next to it:

Clicking on the record locator will allow you to jump between the reservations.

Always link the new split PNR in Edwin.

Step 8

Solution

Parent step: 3

Rebooking ATC

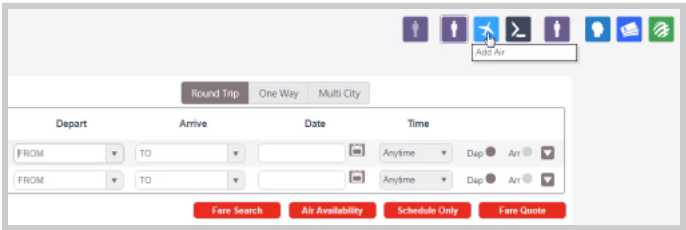

Reissue a ticket (ATC)

General info

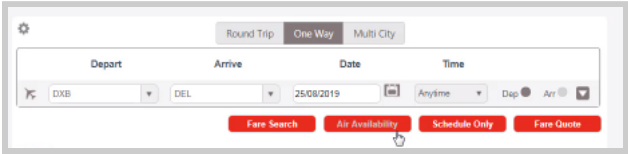

The ATC rebooking mask is automated for 3 times reissue. After that, manual reissue should be processed.

Step by step

- 1. Add the new flights in the PNR by selecting “Add air”:

- Insert the date and departure/arrival airport codes and click on "Air Availability":

- Now, choose the preferred flights/classes and click on the Shopping cart "Price":

3. For one-way ticket:

Pin the Booked flight segments you want to exchange and activate the check box for the flight segments that you want to price for the ticket exchange.
To start the exchange process click **Auto-Exchange**.

For round-trip tickets:

Pin the Booked flight segments you want to exchange using "pin" (highlighted in yellow if pinned) and **activate the check box for the flight segments that you want to price** for the ticket exchange.

If you want to **exchange one leg** of a round-trip ticket (also if the outbound flight segments have been flown already), please only add a new one-way flight to the shopping cart. Then, pin the flight to be exchanged and mark the ones you would like to keep in the booking before you click on **<Auto-Exchange>**:

Check which cabins the passengers are now traveling in as this may have changed to a higher cabin if you selected 'Best Available' pricing and a lower fare is available in a higher cabin than the fare for the original cabin:

Passenger Type

The difference between old and new pricing is calculated. As Best Available is being used for the calculation, cross-check that the fare difference is equal or higher, meaning that the fare difference should not be a negative number. If a rebooking fee is filed, it will be integrated into the calculation and has to be confirmed with a checkbox. If no penalty applies, the row "Applicable Change Fee/Penalty" is omitted.

Now, you will be transferred to the reissue mask.

[Inform the customer regarding the cost and send the MOTO payment/ payment link.](#)

Do NOT submit the reissue if you have not collected the customer payment. If no customer payment, check the "Add collect" amount and click on Cancel.

- If the customer pays go back to Farelogix and continue with the below steps.

The exchange is completed in Farelogix. **Do not send it to ticketing.**

Important! Kindly note that all original tickets must be exchanged (if customers request so). The FL agents have to make sure that all original tickets are exchanged (If all passengers have agreed to rebook their flights).

Ticket statuses will be: Exchanged & Ticketed.

- This should be checked before deleting the unwanted segments.
- Delete the unwanted flights.

No need to use the rebooking wizard, please remember to change the order in Edvin.

Once the rebooking is confirmed, proceed with the rest actions in Edvin as per our normal routines as per this Shelf page: [Sync Trip button, under customer trip field.](#)

If this is not possible, use the old routine: Send email confirmation to the customer from Edvin. Use the template titled *"External portal booking details"* located under folder First Line Other, and Register an Errand.

Step 9

 Solution

Parent step: 1

Adding ancillaries and requests

General info

We are never allowed to go to the airline's website directly and use VAN cards for any requests, all post-sale handling must be through the Farelogix portal only. If the request is not possible through Farelogix, then the customer has to contact the airline themselves.

Seating

Once the paid seat is added, go to the main page, and expand the itinerary to see the service added in HN status.

Refresh the booking to change the status to HD. Click on Issue documents to issue the paid seats EMD.

Seats can be booked for four passengers at a time. If you have more than four passengers in your record locator, book the seats for the first four passengers, then book the seats for the next batch of four. You can, however, issue the EMDs for all passengers at the same time.

Step 13

Solution

Parent step: 2

General info and login

Emirates booked through Farelogix/Sprk has Tripstack as the technical provider.

Bookings are marked with the Tripstack logo and Farelogix banner in Edvin.

All post-sale is managed through the Farelogix portal.

For the integration with EK, the FOP will be **VAN** for both primary and post-booking flow.

Currently, the available IATAs will be our primary Swedish office **80208774**, which is called **EM9G** in Farelogix.

Contact info:

For support with EK policies, please contact EK (same as GDS contact details).

How to access the portal:

Log in through this link: [Farelogix/SPRK](https://farelogix.com/sprk).

All agents have received an email with credentials for PCC: **EM9G** to Farelogix for EK.

EM9G is the main PCC for EK FLX and agents should always log in to this PCC to avoid any issues while managing their booking.

By logging in to the main PCC, the system will automatically jump over to any PCC that your booking is issued through without any action needed from the agent.

The different PCCs can be seen in the tab in the far right corner.

If you have not received credentials, please contact your team leader/manager.

TL/manager creates Jira to IT with agent name, surname, and email.

Extension Browser

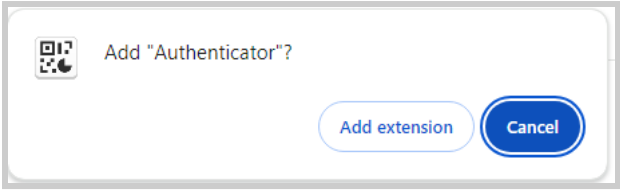

First download the Authenticator extension from :

<https://chromewebstore.google.com/detail/authenticator/bhghoamapcdpbohphigoooaddinpkbai>

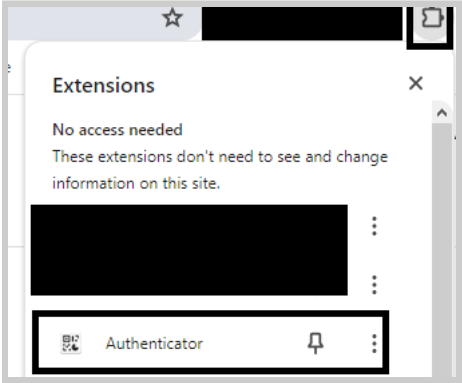

by pressing "Add to Chrome":

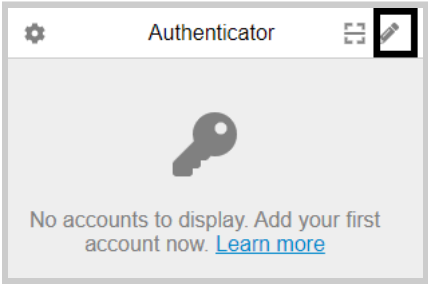

Add extension:

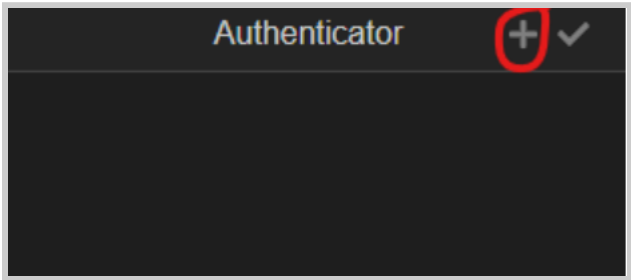

Click on "Authenticator":

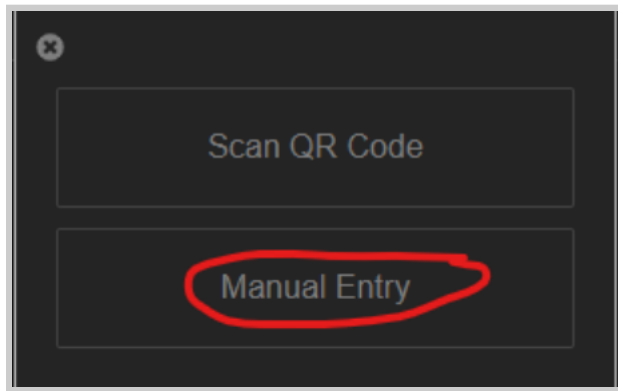

When you try to log in to Emirates a QR code will appear along with a code below.
On the extension click on **Edit** (a pencil):

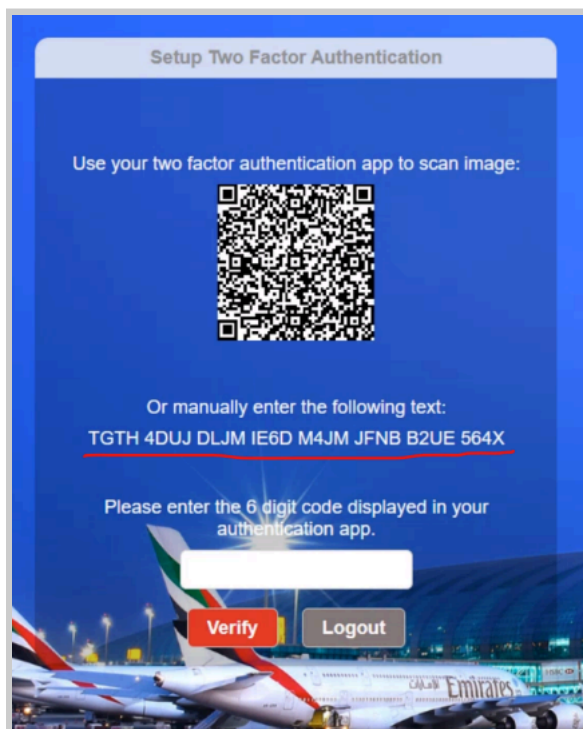

Next, click on **+**:

Next, click on "Manual Entry":

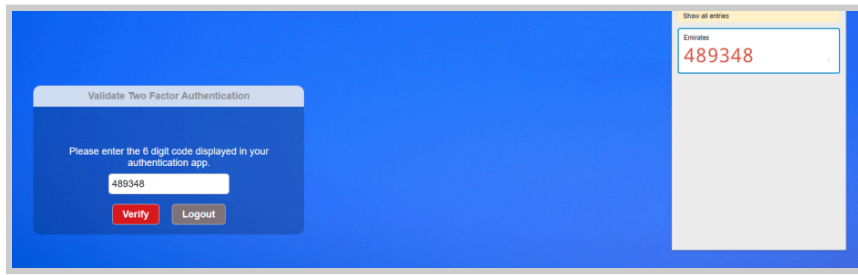

Finally, the Issuer should be **Emirates** and the secret code is the code below the QR:

A dark-themed form with a close button (X) in the top left corner. It contains two input fields: 'Issuer' and 'Secret'. Below the 'Secret' field is a toggle switch labeled 'Advanced'. At the bottom is an 'Ok' button.

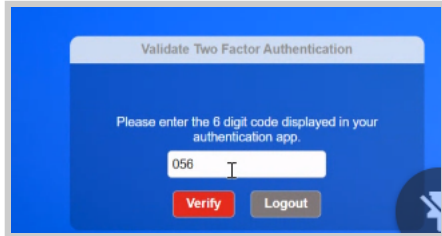

Click OK and it's done!

Now the extension should show a 6-digit code that you can copy to log in to the portal:

Login:

Enter the password you will receive in your email when logging into the portal:

New ticket sell - Add child/infant

New ticket can be sold through Farelogix/SPRK for EK.

1. Click on Add Air:

2. Choose "Fare Search" or "Air Availability".

3. Select the price/flight and add it to the shopping cart. Then fill in the information below:

Traveler: Here we can select PTC, title, first name, middle name if any, and last name (traveler's type: ADT for adult /CHD for child).

Telephone: Operational contact is a useful 24-hour emergency number for the passenger in case of irregular operations.

Email: Add the email address for the passenger.

4. Select the itinerary field, click on the price, and inform the customer about the additional cost (including our fees, if any).

5. Collect the payment from the customer and click on Book.

6. When we receive the customer's payment, continue to issue the ticket using a form of payment **VAN** as the routine: [Create VAN card](#).

7. **Confirmation:** Copy the itinerary from FLX and send email confirmation to the customer from Edvin.
- Use the template titled "External portal booking details" located under folder **First Line Other**.
- Link the new PNR in Edvin.

Add child/infant

- You must always have the full name of the customer and the DOB of the child/infant.
- A child cannot be added to an existing booking. A new PNR needs to be created for the child passenger.
- Queue to support for your location, when the payment link is paid (with our fees as minimum cost - if it is required).
- The support agent contacts the airline for further instructions and sends a payment link to the passenger for the additional cost (if any).

Step 15

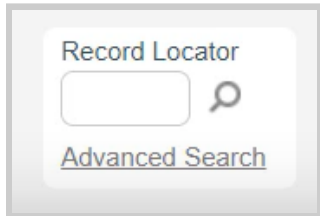

Solution

Parent step: 2

Retrieve PNR

Retrieve PNR

To retrieve future dated bookings click on **"Advanced Search"**:

Insert the PNR from Edvin, and change the source to **"ALL"**:

 A screenshot of the "Search and Claim Functions" dialog box. It has tabs for "Search for Reservation", "FLX Advanced Search", "Search for Ticket/Document", "Claim Reservation", and "Flight Stats". The "Search by Name" section has fields for "Last Name", "First Name", and "Active" (checked). The "Source" dropdown is set to "FLX - Farelogix MI". The "Search by Record Locator" section has a "Record Locator" field and a "Source" dropdown set to "ALL".

The reservation will then open up:

 A screenshot of the reservation details screen. At the top, it shows "Record Locator: [redacted]". Below is a "Traveler" section with a table of two travelers (1 and 2) both of type "ADT". The "Itinerary" section shows two flights: "Tue 15Dec20 03:10a - 07:10a" (DXB-LHR) and "Mon 28Dec20 09:10a - 08:00p" (LHR-DXB). The "Transactions" section shows two tickets (1765 and 1766) both of type "EKT" and status "Ticketed".

If you have followed the above steps and are unable to retrieve the booking in FARELOGIX, check [here](#) the steps for a purged PNR.

Alternatively, you may log into the [Tripstack portal](#) and retrieve the booking. There will be an agency reference shown in the booking details. Copy the agency reference and open the booking in Farelogix using the advanced search as shown in the steps above.

If the agent does not have access to the Tripstack portal, please escalate the booking to your support team.

All agents should have access to the Tripstack portal, so if you do not, please refer to your Team lead or Manager.

Step 16

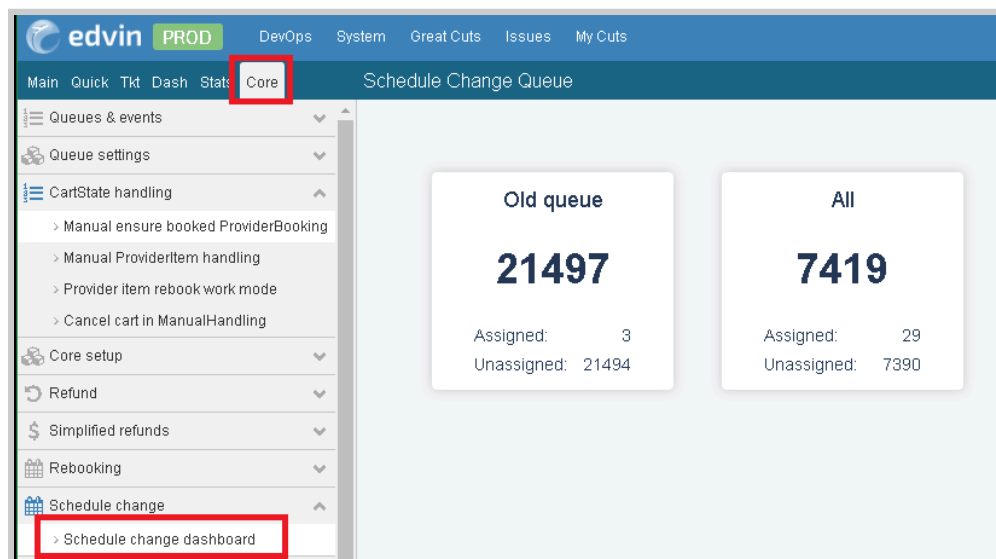

Solution

Parent step: 5

How to enter the SC Queue in Edvin

Farelogix Emirates has been moved to Edvin workmode queue.

Agents need to log in to Edvin Core Schedule change dashboard:

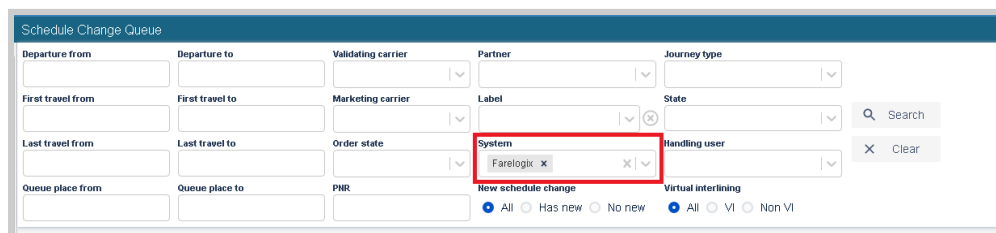

Then they need to choose the correct queue or "All".

Filters:

System Farelogix

Handling state All except In progress

Step 17

Solution

Parent step: 18

FM - Force Majeure

We are never allowed to refer the customer to the airline.

Agents on phone/chat:

- Always check the travel alert page for info.
- Queue booking to your support, if FCR is not possible.
- Add info on what the customer is requesting in Edvin, refund, alternative flights, etc.

Support:

Always Check the PNR history in the portal and try to assist the customer.

Involuntary FM rebooking

Instructions for involuntary Rebooking can be found on the extended tab below, **Invol change and reissue**.

Involuntary FM cancellation

If a customer wants to cancel due to Force majeure and check for a refund: always check in TA for information and procedure if there is any information.

FL or SC agent can confirm the cancellation with the customer and inform that we will apply for the refund, with no guarantees as per usual routine.

Instructions for involuntary Refund can be found on the extended tab below, **Invol SC Refund tab**.

Step 18

Question

Parent step: 1

Emirates Airline (via Tripstack)	
General Guidelines	Click here for the login details
How do we receive the SC notifications?	Schedule change notifications from carriers are: - received in OTRs as email - placed on Farelogix portal, Q7 - Connected with SC Workmode via OCN.
What ETG is responsible for handling?	Non-VI We handle all schedule changes that occur up to 24 hours from departure from Edvin Workmode, but the agent should always check and remove it from any other queue. VI We handle all schedule changes, and the agent should always remember to remove them from any other queue, before handling.
How does ETG handle the SC notification?	Check the link for the handling via Phone SC task Check the link for the handling via Chat SC task Check the link for the handling via Email SC task Check the link for the handling via SC WM task: SC Description Manual handling
If the agent is not trained in SC handling, follow the below:	If the customer contacts us for rebooking or refund due to a schedule change, and there is no information under Edvin: 1. Open the booking via the airline portal. 2. Check if there is a schedule change. 3. Transfer the call to SC Q based on the division: FL/SC Genesys Qs to transfer an interaction and checklist

Flight Irregularities	
1. SC - Schedule change	Step 5
2. FM - Force Majeure	Step 17

Step 19

Solution

Parent step: 6

Dupe

When customers contact us to cancel one of the two bookings (**DUPE**):

- Place the case for support
- The support agent will contact the airline company (Emirates) to cancel the flights of the one booking and ask them for guidance on how to proceed with a full refund (**NO** guarantee to the customers).

Step 20

Solution

Parent step: 3

Rebooking Manual Calculation

General info:

The ATC rebooking mask is automated for 3 times reissue. After that, manual reissue should be processed.

How to Reissue a Ticket in the Emirates Booking Portal with a manual calculation:

Please note that in case of rerouting, FL agents need to check the:

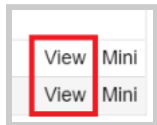

- Penalties,
- Rule/Flight Application and,
- Voluntary Changes sections of the fare rules to check the area/country/continent eligibility of the fare booked.

Remember, most usually rerouting is not allowed from one area to another, neither to the departure airport nor to the arriving one. Additionally, changing the IATA area origin is forbidden.

ATTENTION

It is not permitted to change a Domestic journey to an International one and vice versa Changing an International journey into a Domestic journey.

- Please ensure to check the ticket rules by clicking on "VIEW" to be sure if changes are allowed on the ticket or not, do not check "MINI" Rules.

1. Add the new flights in the PNR by selecting "Add air".

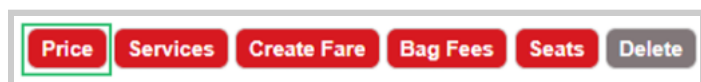

- Insert the date and departure/arrival airport codes and click on "Air Availability":

- Now, choose the preferred flights/classes and click on the Shopping cart "Price".

The current valid ticket will always show the status as 'Ticketed'. Any tickets that have been edited and reissued will show as 'Exchanged'.

Important! Kindly note that all original tickets must be exchanged (if customers request so). The FL agents have to make sure that all original tickets are exchanged (If all passengers have agreed to rebook their flights). Ticket statuses will be: Exchanged & Ticketed.

- This should be checked before deleting the unwanted segments.
 - Now the ticket has been reissued and you need to delete the old flight segments with the old booking date and flights.
 - Exchange is completed until the end in Farelogix. Do not send it to ticketing.
 - Delete the unwanted flights.
 - No need to use the rebooking wizard, please remember to change the order in Edvin. When you have completed the rebooking DO NOT queue in Edvin to ticketing or to fix in D365 as you have already finalized all steps in Farelogix.
 - Once the rebooking is confirmed, proceed with the rest actions in Edvin as per our normal routines as per this Shelf page: [Sync Trip button, under customer trip field](#).
- If this is not possible, use the old routine: Send email confirmation to the customer from Edvin. Use the template titled "External portal booking details" located under folder First Line Other, and register an errand.

Cancellation - ATC

Fare rules

General info

The claim task has been moved to the SL team as of November 5, 2024.

- Handling Based on Original Travel Time:
- If Original Travel is **more than 4 Hours**:
 - Inform the customer about the Penalty and if the customer confirms the cancellation, delete the segments, and click on the "Modify" button accordingly, SL will continue and cancel the order in the Portal.
 - If Original Travel is **within or Less than 4 Hours**:
 - Follow the standard refund routine as usual.

The ATC refund mask is applicable.

In the automated refund function the penalty field, the used fare, and the refund fields are always grayed out and not able to be edited.

Never change to manual unless you have a waiver or authorization or you have been given direct instructions by the airline.

For cancellation as per fare rules/taxes of the entire order please use Automation, step by step [here](#).

Otherwise, proceed manually as per step by step below:

Step by step

- 1. Check the fare rules of the ticket.
- 2. If cancellation is possible by the rules, inform the customer, including our fees (if any).
- 3. If the customer wants to proceed with cancellation, please check the **Step by step** in the portal:

- In the 'Transactions' section, click on the ticket number that you want to refund:

- Add note TKT REFUNDED in the "Other info to BO" box.
- Send cancellation confirmation to the passenger from Edvin.

Partial refund

ATC mask is working for partially used tickets.

Ensure to inform the customers about ETG and the airline's fees before proceeding with the next action and deleting the segments and the tickets.

After No-Show

For the Refund scenario, the tickets have an S (Suspended) coupon status after a No-show.

According to Edvin's docs, we have to contact EK to turn the coupons back to open.

The process is the same for GDS & Portals. We need to contact the airline to open the coupon status and then refund by applying the No-show penalty.

Ancillaries in case of voluntary cancellation

EMDs are non-refundable.

Involuntary refund via Farelogix

WE NEVER REFER PASSENGER TO CANCEL WITH THE AIRLINE in any case.

Procedure for Handling NDC/LCC Refunds

1. Document Verification in Edvin: The FL/SC agent is responsible for reviewing Edvin's documents to ensure that an involuntary refund is authorized in accordance with policy guidelines.
2. Deadline Check
 - Verify if there are any specific deadlines associated with processing this refund.
 - If yes, and it is close to the deadline as per airline policy, or SSR, or guide (*within 4 hours of the deadline*), then the agent should **prioritize the refund and manually handle the refund**.
 - If no deadlines are indicated, proceed with the following steps:
3. Handling Based on Original Travel Time:
 - If Original Travel is **More than 4 Hours**:
 1. Update the Modify button accordingly, allowing SL to assume the case.
 2. Ensure any applicable waiver codes are documented clearly in the errands.
 3. Remove the segments if possible
 4. Send cancellation confirmation email from Edvin
 - If Original Travel is **Within or Less than 4 Hours**:
Follow the manual handling refund routine and handle it.

Step 2 - Display the Ticket Image, by clicking on the ticket number:

Click on Ticket No

Step 3 - Click "Refund" and the ticket refund screen will be displayed:

The refund amount needs to be calculated manually, respecting unused flight segments, taxes, cancellation fee, and commission.

Step 4 - Always remember to adjust the commission in the refund mask

- Click on the commission field in the refund mask,
- If there is a Penalty, the 'On Penalty' field will be editable.
- A Commission can be entered on the Returned on Original ticket in the corresponding field. Type the amount found in the history.(as per Step 1).
- Click the Commission Calculator to close this panel.

If the field is auto-populated with the correct commission amount no action is needed (don't forget to double-check the History).

Commission amounts will update in the field labeled 'No Commission Due', and the label will change to 'Commission Due'.

Step 5 - Use Tax Used Calculator as shown below.

If some taxes are non-refundable (for each listed tax, the tax rate will show Refunded; if, however, some portion of the tax is not refundable, it can be edited):

Manual refund handling for Partially used: Applicable via BSP.

Frontline agents need to follow all steps by canceling segments in Farelogix and then queuing the booking to BO using Modify order. Do not forget to use the label, to inform the BO team that BSP needs to be raised.

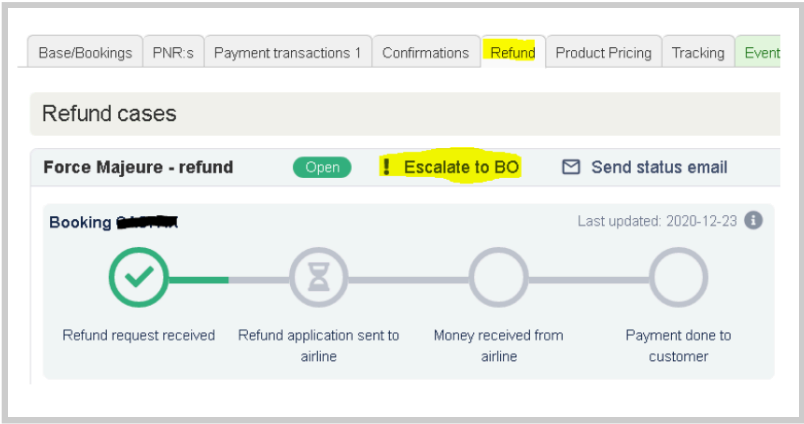

When a BSP refund for the tickets is required, please follow the flow [here](#).

How to refund baggage EMD in SPRK (FLX):

Refund the ticket and the EMD.

The baggage has to be refunded via the BSP link. There is no guarantee of a baggage refund. Each ticket is to be refunded in Sprk as usual, then copy the EMD number and add in Edvin "Escalate to BO" and write pls send RA via BSP link for the baggage EMD: XXXXX

Example:

Refund only the EMD

Note that baggage and seats have to be refunded via the BSP link for Emirates.

If you have proceeded with a reissue, but the airline is unable to associate the EMD to the new reissued ticket, then we need to refund the old EMD and issue a new one for the new tickets (if possible).

Since the old EMD needs to be placed on the refund queue (claims) with relevant notes. Use one of the below Modify order reasons:

>> **EMD/TKT - Refund to us:** a new EMD is issued by SC (after a ticket was reissued and it was not possible to associate the EMD), thus the old EMD should be refunded to us.
No EMD refund to pax.

>> **EMD - Refund to customer:** An EMD needs to be refunded to the customer after a ticket is reissued, but it was impossible to associate the EMD or issue a new EMD, thus the EMD of the original ticket should be paid to the customer.
EMD refund to pax.

The SC agent during the ‘modify order’ always should add in the note section the below information:

- Reason type: [Invl EMD]
- EMD/Ticket to refund:
- Value & Currency of EMD:
- EMD/Ticket to keep:

EMD/TKT - Refund to us

The new ticket is issued and will be shown in the next window. The exchanged and the newly-issued ticket will be shown in the transaction section of the reservation screen.

Send an email to the passenger with the new ticket (delete pricing information).

Insert errand notes in Edvin.

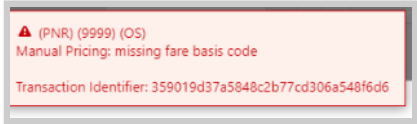

Change the status.

Place on "Fix in D365 queue".

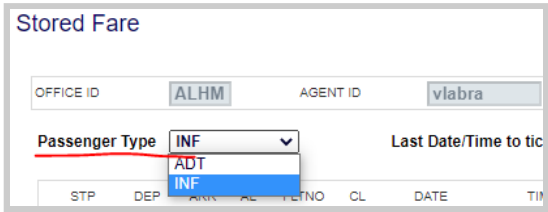

Do not forget to reissue each ticket separately.

Manual Pricing: missing fare basis code:

When working on a PNR that includes multiple passenger types (ADT and CHD or ADT and INF or both), there is the possibility that you will receive the below error message:

That means that you have to create a fare mask for each passenger type by selecting the appropriate passenger type from the dropdown menu depending on each passenger:

While you are updating all the fare masks for all passenger types, the error message will still appear. Once all fare masks are created, the mask automatically closes and the fares are stored successfully.
