7. ✔ Cancellation
8. ✔ Involuntary handling (SC/FM)

Step 1 - Starting point

Question

No linked steps

Frontier Airlines 1A Ticketless

Frontier Airlines (F9) will start being sold through a new booking method in **GDS - Ticketless**.

These flights will only be **available in Amadeus**; the system will create a PNR and flight segments as normal, but **there will be no tickets issued in the PNR** (hence the name) and **no EMDs** as well. **"Please note that no escalation to Fulfillment team will be needed since there is no ticket to be reissued nor EMD's to be issued"**

This means that we will not be able to see the coupon statuses or airline ancillaries, and also we are not able to see the fare rules of the PNRs fulfilled.

Please note that the airline doesn't allow passive and open segments. Please make sure **not to add a Ghostline** to the **Frontier airline (F9) Amadeus PNRs**.

The customers will be able to book such content on our websites and the system will be able to offer baggage as well. However no other ancillaries can be booked in the primary flow (at least for now).

The general handling of this content will follow along the lines of the LCC flow, meaning that for all post-booking actions we will be logging in to the website of Frontier and doing actions there (rebooking, NACO, adding ancillaries). Some actions will be completed directly in the "MyBooking" section of Frontier's website, others via their Chat support.

From 29/08/2023 F9 content is available also to B.com customers.

Note: In order for the **Frontier Ticketless** orders to be identified properly, the following information has been added in Edvin in the Post sale handling section of the Customer trip:

1 MIA – PHX										
Flight	Dep	Date	Time	Arr	Date	Time	Reference	Issuing office	Post sale handling	
 F91515	MIA	2023-01-15	08:00	ATL	2023-01-15	08:00	  MIASG38AA	 MIASG38AA	 External portal	 Frontier Ticketless
 F91563	ATL	2023-01-15	08:00	PHX	2023-01-15	08:00	  MIASG38AA	 MIASG38AA	 External portal	 Frontier Ticketless

The text "**Frontier Ticketless**" is clickable and will redirect you to the [Manage trip](#) section of the airline's website.

Frontier Airlines 1A Ticketless

1. Rebooking within 24h from PNR creation Step 3
2. Rebooking Step 4
3. NACO/NACH Step 5
4. Cancellation within 24h from PNR creation (more than 7d before flight departure) Step 6
5. Cancellation Step 7
6. Involuntary handling (SC/FM) Step 8
7. Ancillary add-ons Step 2

Step 2

Solution

Parent step: 1

Ancillary add-ons

All airline add-on ancillary services, can be added directly at their website (flow similar to LCC add ancillary).

1. Customer contacts for a post-booking ancillary addition
2. Log in to MyBooking and try the add ancillary feature
3. Get the price from F9 website
4. Add our own fees (whenever applicable as per standard fees exceptions)
5. Inform the customer about the total ancillary amount
- IF pax agrees**
6. Charge the customer via Payment Link or via Moto(IVR), whenever applicable as per standard fees exceptions
7. Add the order in the **LCC Add Ancillary** OR **LCC Add Ancillary Urgent** Edvin queues, according to the LCC add ancillary routine urgency.

Note: IF any ancillaries requested by the customer are not visible in the website, it is not possible to add them.

Step 3

Solution

Parent step: 1

Rebooking within 24h from PNR creation

Within the first 24h of the PNR creation*, we can process a rebooking without paying the airline penalties. This rebooking can only be requested/completed from the Frontier Reservation center, contacted via chat in their website.

The handling steps are as follows:

1. Customer contacts for a rebooking
2. FL does the regular checks in Edvin and asks for the new dates of the rebooking
3. Go to the Frontier website and contact their Reservation center via chat
4. Inquire about rebooking within 24 h from the PNR creation with the new dates
5. Get the price difference from F9 Reservation center (no penalties)
6. Add our own fees (whenever applicable as per standard fees exceptions)
IF pax agrees
7. Charge the customer via Payment Link or via Moto(IVR) whenever applicable as per standard fees exceptions
8. Follow the instructions of the Reservation center of F9
9. Issue VAN from Edvin (or via SS)
10. Complete the Rebooking via the website

* In order to check if we are within the 24h time-window, you can check when the active segments were saved in the PNR history (RHI).

Step 4

Solution

Parent step: 1

Rebooking

For all other cases of rebooking (not within the first 24h of PNR creation*), follow the below steps:

1. Customer contacts for a regular rebooking
2. FL does the regular checks in Edvin and asks for the new dates of the rebooking
3. Is the original flight departure within 24h?
 - **NO**
 - a. Log in to Manage my Trip and search for new flight availability
 - b. Get the price difference from the F9 website (including penalties)
 - c. Add our own fees (whenever applicable as per standard fees exceptions)
 - d. Inform the customer about the total rebooking amount
IF pax agrees
 - e. Charge the customer via Payment Link or via Moto(IVR), whenever applicable as per standard fees exceptions
 - f. Issue VAN from Edvin (or via SS)

g. Complete the Rebooking in the website

◦ **YES**

a. Go to the Frontier website and contact their Reservation center via chat

b. Inquire about rebooking within 24h of original flight, with the new dates

c. Get the price difference from the F9 Reservation center (including penalties)

d. Add our own fees (whenever applicable as per standard fees exceptions)

IF pax agrees

e. Charge the customer via Payment Link or via Moto(IVR), whenever applicable as per standard fees exceptions

f. Follow the instructions of the Reservation center of F9

g. Issue VAN from Edvin (or via SS)

h. Complete the Rebooking in the website

* In order to check if we are within the 24h time-window, you can check when the active segments were saved in the PNR history (RHI).

Note: The same process is followed for partially used tickets as well (i.e. if the customer requests rebookin within 24h of return flight of the original booking, and outbound is flown).

Step 5

Solution

Parent step: 1

NACO/NACH

Name corrections/changes are case-to-case policy, so we should always check with the airline via their Reservation center.

The handling steps are as follows:

1. Customer contacts for a NACO/NACH

2. **FL** does the regular checks in Edvin and requests the correct name

3. Request Passport copy, if necessary

4. Go to the Frontier website and contact their Reservation center via chat

5. Inform the customer about the total Name correction penalty + our fee, if applicable as per standard fees exceptions (if FOC from F9, just inform about our fee)

IF pax agrees

6. Charge the customer via Payment Link or via Moto(IVR), whenever applicable as per standard fees exceptions

7. Follow the instructions of the Reservation center of F9

8. Issue VAN from Edvin (or via SS)

9. Complete the NACO/NACH in the website

Step 6

Solution

Parent step: 1

Cancellation within 24h from PNR creation (more than 7d before flight departure)

We are able to request a refund for the customer only in the case when the cancellation takes place within 24h from the PNR creation* **AND** the first departure is more than 7 days in the future.

Note: In case the cancellation is requested within 24h of the PNR creation but the first flight is less than 7 days in the future, please follow the standard cancellation routine for F9 (chapter 5. Cancellation).

The handling steps are as follows:

1. Customer contacts for a cancellation within 24h of PNR creation, and first flight is more than 7 days in the future.
2. Log in to Manage my Trip at the Frontier Website and confirm that flight cancellation is possible (click the cancel button to check the eligibility and amounts, but do not confirm the cancellation unless the customer agrees)
3. Inform about our fees and non-refundable products (based on the 24h cancellation reason)
IF pax agrees
4. Complete the flight cancellation in the Frontier website
5. Please note that the airline doesn't allow passive and open segments. Please make sure **not to add a Ghostline** to the **Frontier airline (F9) Amadeus PNRs**.
6. Cancel the order via the Modify order button (CXL reason: **24h airline rule**)

* In order to check if we are within the 24h time-window, you can check when the active segments were saved in the PNR history (RHI).

IMPORTANT! The below cancellation reasons should **NOT** be used and are not available in Edvin when modifying the order for F9 single or multi PNR (that includes only F9).

Attention! For multi PNR (that includes another YY) although the below cancellation reasons are available in Edvin, it's still **WRONG** to be used for canceling the F9 pnr.

- CXL Before Ticketing
- Ticket rules - airline fee
- Ticket rules - taxes
- Ticket rules - cancel after departure
- Void

Step 7

Solution

Parent step: 1

Cancellation

For all voluntary cancellations requested (after 24h of PNR creation* or within 24h of PNR creation but the first flight is less than 7 days in the future), follow the below steps:

1. Customer contacts for a cancellation
2. Log in to Manage my Trip at the Frontier Website and confirm that flight cancellation is possible via voucher (click the cancel button to check the eligibility and amounts, but do not confirm the cancellation unless the customer agrees)

3. Inform customer that any possible refund will only be returned as a Credit Shell (voucher) in their email that can be used at the F9 website (all information regarding the Credit Shell, such as amount, voucher number, validity and how-to-use will be included in the customer's email)
4. Inform about OUR product refundability (separate payout)

IF pax agrees

5. Charge the customer our cancellation fee via Payment Link or via Moto(IVR), whenever applicable as per standard fees exceptions.

(**Note:** we need to charge our fee beforehand, since the customer will receive the Credit Shell (voucher) value at their email.)

IF pax pays the cancellation fee

6. Log in to MyBooking and request flight cancellation and confirm via the website
- If any refundable ancillaries are present:
 - Cancel the order via the Modify order button (cancellation reason: **Ancillary-Voluntary**)
 - If no refundable ancillaries are present:
 - Cancel the order via the Cancel button (cancel reason: **Other refund request**)

* Please note that the airline doesn't allow passive and open segments. Please make sure **not to add a Ghostline** to the **Frontier airline (F9) Amadeus PNRs**.

* In order to check if we are within the 24h time-window, you can check when the active segments were saved in the PNR history (RHI).

Note: For any other types of cancellations (e.g. dupe), please contact the Frontier Reservation center to ask for clarifications.

Exception: GDPR cases, for any GDPR cancellation, please refer the customer directly to the airline.

Step 8

Solution

Parent step: 1

Involuntary handling (SC/FM)

Flight irregularities (SC/FM) will only be informative on our side, meaning that we can only see that a change has occurred and that an alternative flight was offered to the customer. Only the customers themselves can accept, request change or cancel their order for flight irregularities, **via an email that they receive from the airline directly**.

In the case that the customer requests a cash refund, the airline will process the refund to the original FOP and then inform the customer to contact us. The order will then need to be cancelled via the Modify order button, but with the **"Force Majeure-Refund" OR "Schedule Change-Refund"** cancellation reasons.

The handling steps are as follows:

1. Customer contacts for an involuntary cancellation (and has already requested cash refund from the airline)
2. Inform about any non-refundable products (based on the appropriate involuntary cancellation reason)
IF pax agrees
3. Cancel the order via the Modify order button (CXL reasons: **"Force Majeure-Refund" and "Schedule Change-Refund"**)
