

## How to ask for coordinators assistance in Slack

ATH/UPA FL, SC teams

1. ? Question
2. ? Slack channel for FL agents
3. ? Slack channel for FL Support agents
4. ? Slack channel for SC agents in Athens

### Step 1 - Starting point

#### Question

No linked steps

**This information affects only the UPA/ATH FL teams and the SC team in ATH.**

The dedicated Slack channels are the means of contact between the agents and the coordinators. Through them, the FL/SC agents can ask for assistance regarding requests they have received from the customers.

**Before asking for assistance**, however, the agents should make sure to investigate the case and search for any related information in Shelf.

The questions in the Slack channels should be very precise and specific. The agents should also briefly mention to the coordinators the work and investigation they have already done for the case.

#### Question

| 2. Slack channel for FL Support agents | Step 3 |
| 3. Slack channel for SC agents         | Step 4 |

### Step 2

#### Solution

Parent step: 1

## Slack channel for FL agents

There is one channel in Slack per location where the agents can ask the coordinators for help:

**For UPA:**

#fl-upa-coordinator-cc

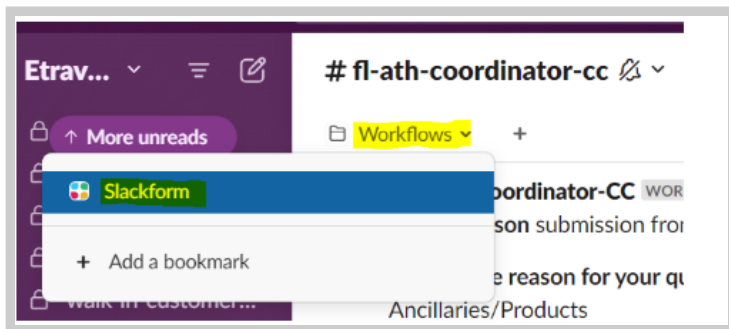

For ATH:

#fl-ath-coordinator-cc

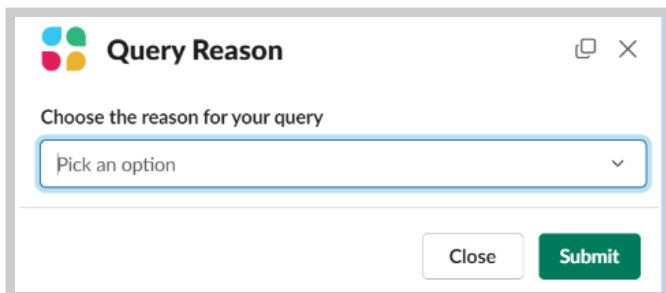

## How to submit the query

The agents can submit their queries by following the steps mentioned below:

1. Select the Slack channel of your location. For example select #fl-ath-coordinator-cc, if you're based in Athens.
2. Click on "Workflows" at the top of the channel and then select "Slackform":

3. A new window will pop up. Select from the dropdown menu, the reason for your query based on the request of the passenger and/or your question and click on "Submit":

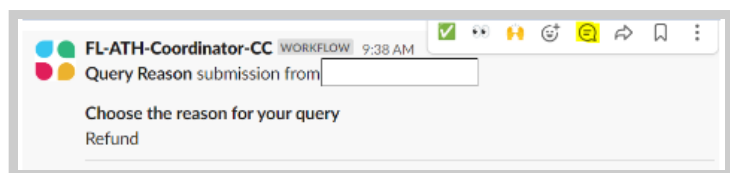

The available options to select as the reason for your query are the following ones:

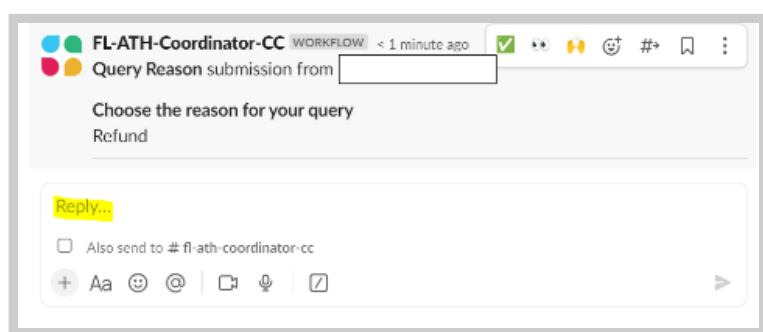

- FM TA
- Schedule Change
- Refund
- Cancellation
- Rebooking
- NACO/NACH
- Ancillaries/Products
- Payment issue/Fraud
- New ticket sell
- Escalation to Coordinator
- System/Tech issue
- Retail loss
- Supervisor callback
- Confirmation/ Receipt/ Invoice/DOCS

- Call recording
- Chargeback

4. After the submission of the query, your request will be visible in the channel like the following one:

5. Choose the speech bubble highlighted in the previous screenshot to type your question:

## Important to note:

- In your query, you should always **mention the order number** and **the work and/or investigation you have already done** yourselves. Apart from that, you should be very precise with your question and with what kind of help you need from the coordinators.
- Once the coordinator starts looking into your query, they will react to it with a symbol, for example, 🕒.
- Once the coordinator has replied, you have **3 minutes** to revert again, otherwise, the thread is “dead” and you will have to create a new query.
- If there is no response from the coordinators within 5 minutes, you have the option to not wait for a response any longer and send the case to Support for further handling. In this case, you should inform the customer accordingly.

## Step 3

### Solution

[Parent step: 1](#)

## Slack channel for FL Support agents

There is one channel in Slack per location where the Support agents can ask the coordinators for help:

**For UPA:**

#fl-upa-coordinator-support

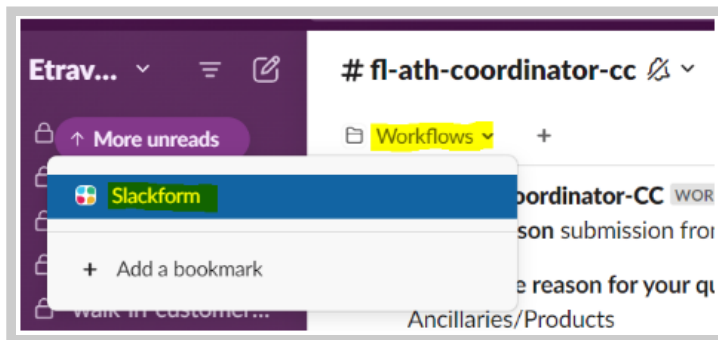

For ATH:

#fl-ath-coordinator-support

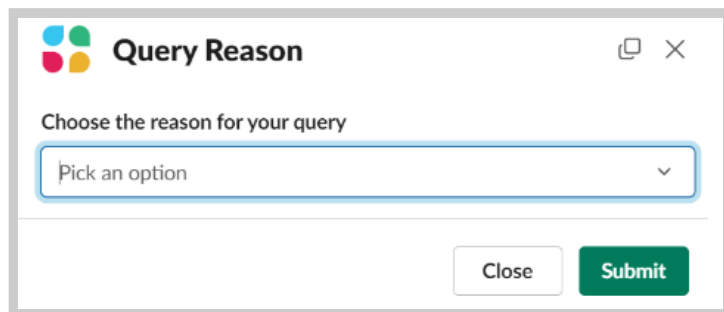

## How to submit the query

The agents can submit their queries by following the steps mentioned below:

1. Select the Slack channel of your location. For example select #fl-ath-coordinator-cc, if you're based in Athens.
2. Click on "Workflows" at the top of the channel and then select "Slackform":

3. A new window will pop up. Select from the dropdown menu, the reason for your query based on the request of the passenger and/or your question and click on "Submit":

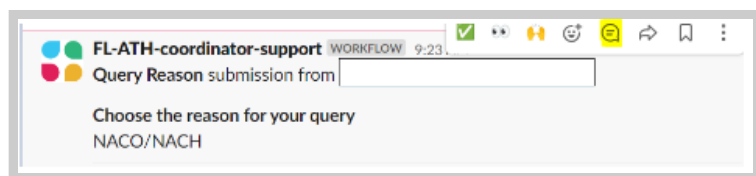

A screenshot of a 'Query Reason' dialog box. The title is 'Query Reason'. Below the title, it says 'Choose the reason for your query'. There is a dropdown menu with the text 'Pick an option'. At the bottom, there are two buttons: 'Close' and 'Submit'.

The available options to select as the reason for your query are the following ones:

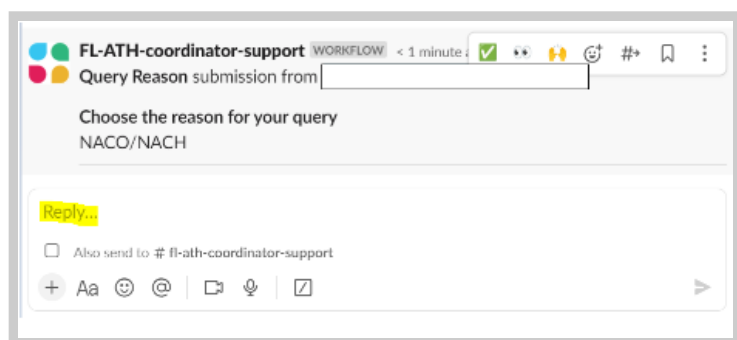

- FM TA
- Schedule Change
- Refund
- Cancellation
- Rebooking
- NACO/NACH
- Ancillaries/Products
- Payment issue/Fraud
- New ticket sell
- Escalation to Coordinator
- System/Tech issue
- Retail loss
- Supervisor callback

- Confirmation/ Receipt/ Invoice/DOCS
- Call recording
- Chargeback

4. After the submission of the query, your request will be visible in the channel like the following one:

5. Choose the speech bubble highlighted in the previous screenshot to type your question:

## Important to note:

- In your query, you should always **mention the order number** and **the work and/or investigation you have already** yourselves. Apart from that, you should be very precise with your question and with what kind of help you need from the coordinators.
- Once the coordinator starts looking into your query, they will react to it with a symbol, for example, .
- Once the coordinator has replied, you have **3 minutes** to revert again, otherwise, the thread is “dead” and you will have to create a new query.

## Step 4

### Solution

## Slack channel for SC agents in Athens

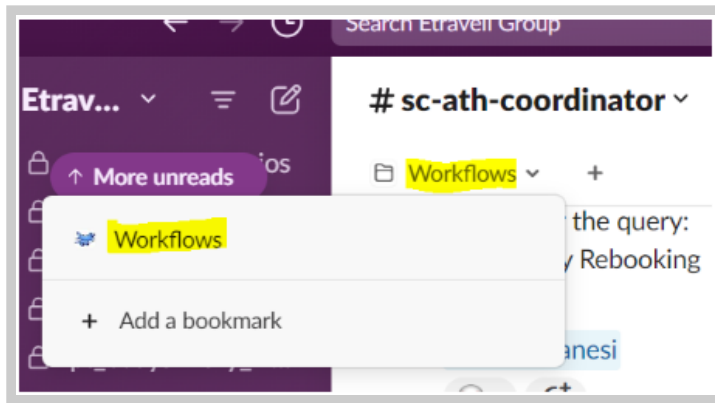

There is one channel in Slack in Athens where the Support agents can ask the coordinators for help: #sc-ath-coordinator

## How to submit the query

The agents can submit their queries by following the steps mentioned below:

1. Select the Slack channel of your location. For example select #sc-ath-coordinator-cc, if you're based in Athens.

2. Click on “Workflows” at the top of the channel and then select “Slackform”:

3. A new window will open like the one below:

New Request

✕

Query related to

Select an option

▼

Choose the reason for your query

Select an option

▼

Close

Submit

4. Select from the dropdown menu whether the query is related to Support, Workmode, or a Call or an Email:

New Request

✕

Query related to

Select an option

▼

Workmode

Support

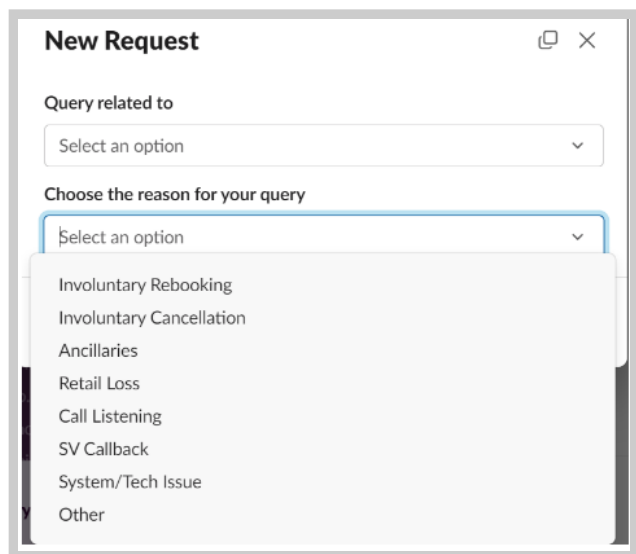

Call

Email

Close

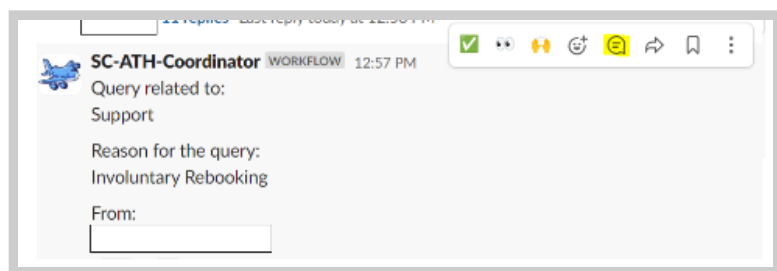

Submit

5. Then, choose from the second dropdown menu the reason for your query:

The screenshot shows a 'New Request' form. The first dropdown menu is labeled 'Query related to' and has 'Select an option' as its placeholder. The second dropdown menu is labeled 'Choose the reason for your query' and is open, showing a list of options: 'Involuntary Rebooking', 'Involuntary Cancellation', 'Ancillaries', 'Retail Loss', 'Call Listening', 'SV Callback', 'System/Tech Issue', and 'Other'.

6. The query, once submitted will be visible in the Slack channel as in the following screenshot:

The screenshot shows a Slack message from 'SC-ATH-Coordinator' (WORKFLOW) at 12:57 PM. The message content is: 'Query related to: Support', 'Reason for the query: Involuntary Rebooking', and 'From: [redacted]'. The message has a green checkmark icon and a speech bubble icon in the top right corner.

7. Click on the speech bubble highlighted in the previous screenshot to type more information about your query in the thread:

The screenshot shows the Slack thread reply interface. The message from 'SC-ATH-Coordinator' (WORKFLOW) is visible, with the text: 'Query related to: Call', 'Reason for the query: Involuntary Rebooking', and 'From: [redacted]'. Below the message is a 'Reply...' input field with a checkbox labeled 'Also send to #sc-ath-coordinator'. The input field has a plus icon, a text icon, a speech bubble icon, a tag icon, a link icon, and a send icon.

## Important to note:

- In your query, you should always **mention the order number** and **the work and/or investigation you have already done** yourselves. Apart from that, you should be very precise with your question and with what kind of help you need from the coordinators.
- Once the coordinator starts looking into your query, they will react to it with a symbol, for example, 🧐.
- Once the coordinator has replied, you have **3 minutes** to revert again, otherwise, the thread is “dead” and you will have to create a new query.

- **For SC phone agents only:** If there is no response from the coordinators within 5 minutes, you have the option to not wait for a response any longer and send the case to Support for further handling. In this case, you should inform the custom
