Solution

Parent step: 1

General information and login

To access the Letsfly portal use this link: [Aerohub portal](#)

Once you enter the link of the portal you will need to fill in the “Username”, “Password”, “Sub Account” details as they have been provided to you and click the “Sign In” button.

The image shows a login form for Aerohub. At the top, the word "AEROHUB" is displayed in a bold, blue, sans-serif font. Below the logo, there are three input fields stacked vertically. The first field is labeled "Username" with a person icon on the left. The second field is labeled "Password" with a lock icon on the left and an eye icon on the right. The third field is labeled "Sub Account" with a "No" icon on the left. Below these fields is a large blue button with rounded corners, containing the text "Sign In" in white. The entire form is enclosed in a dark blue border.

You can also reach out to our customer service team via email to cs@aerohubtech.com, for any request around your bookings, including changes and refunds. Bear in mind that the use of email to address our requests needs to be made only for **urgent requests**, not for all kinds of post booking handling.

A request is considered to be urgent if the departure flight is within 72 hours from the date of the request. Please note that whenever we need to apply for a request urgently, we must not guarantee to the customer the date of resolution or the actual result of the request as everything is handled case to case.

Step 5

Solution

Parent step: 1

How to retrieve a booking

1. Search for the bookings by filling in relevant information (eg. Booking ID or PNR).
2. Click "Filter" to get Searching Results.
3. Click "Detail" to get Booking Detail.

Info available at Booking Detail:

- Airline, schedule and flights
- Passengers and Contacts
- Fare Summary
- Ticket Changes

To split the customers, you can only apply for a request through Q&A as the portal does not support split function.

ATTENTION: Fare rules are not yet a feature we can use through Letsfly portal, but it is supposed to be fixed within the 1st quarter of 2024. As a result for any post booking inquiry, you need to send the request to Letsfly to provide you with more details.

Step 6

Solution

Parent step: 7

Void/ 24h cancellation rule

In general, Void and 24 hour cancellation rule are not allowed according to Ryanair policy.

In case the customer has proceeded with a void or 24h cancellation on their own directly with the airline (either on the website of the carrier or through direct contact), it will not be reflected in the portal. So in case you receive a request, where the customer claims they have already requested a refund from the airline, you need to submit a refund request through Q&A in order for the consolidator to refund us so that we can process the payout of the amount.

Step 7

Question

Parent step: 1

Ryanair PNRs sold through Letsfly

Ryanair does not provide support to travel agencies. Agents can never contact Ryanair - not by phone, chat, email or in any way and not even on behalf of the customer.

If you cannot handle it on the airline's website, refer them to contact Ryanair directly.

For our cooperation with Letsfly, it has been decided that we will sell Ryanair PNRs and handle them as per our normal routines for Exception LCCs and [Special handling LCC](#), except for the cases where voluntary and involuntary refund has been requested.

You will be able to recognise the orders issued under Letsfly through a banner on the top of the Edwin page.

This means that you can access and handle the PNRs through the airline's website and according to the possible processes that you are allowed to finalize without getting in contact with Letsfly at any point. It is also important to say that in case we are unable to proceed with the customer's request it is possible to refer him to the airline, in order for him to complete the request. The processes for which you need to follow the usual

approach for LCCs are the below, so please click on the link per process in order to check the relevant guidelines.

- [Rebooking](#)
- [Name correction/Name change](#)
- [New ticket](#)
- [SC Rebooking](#)
- You can also add ancillaries only through the airline's website as per normal routine

As you are already aware there might be instances where verification of the passenger is requested from Ryanair. The customers are provided with all the relevant information during the booking creation as well as through MYP. In case you stumble upon such cases you can advise the customer to proceed with the verification and then contact us again to try to assist further in the request on the website.

For any of the known ongoing issues you can always advise the guidelines [here](#).

Ryanair PNRs sold through Letsfly

- | | |
|--|---------|
| 1. Void/ 24h cancellation rule | Step 6 |
| 2. Voluntary cancellation | Step 8 |
| 3. GDPR/ Dupe | Step 9 |
| 4. Schedule Change (SC) | Step 11 |

Step 8

Solution

[Parent step: 7](#)

Voluntary cancellation

For a voluntary cancellation, Ryanair has a general non refundable ticket policy so we cannot make any claim on our own. In case the customer has proceeded with a cancellation according to fare rules on their own directly with the airline (either on the website of the carrier or through direct contact), it will not be reflected in the portal.

So in case you receive a request, where the customer claims they have already requested a refund from the airline, you need to submit a refund request through Q&A in order for the consolidator to refund us so that we can process the payout of the amount.

In the case of voluntary cancellation request, you need to add the "Booking ID" (booking ID or PNR), select the option "Refund" and then "Voluntary".

Add question ×

* Booking ID:

* Category: Refund Select ▼

* Detail:

Voluntary

Involuntary

Submit

Fill in more information based on the request type in the “Details” free-text box and “Submit”.

Step 9

Solution

[Parent step: 7](#)

GDPR/ Dupe

In general it is not possible for us to claim a refund due to dupe or due to GDPR when it comes to Ryanair. In case the customer has made the claim on his own directly with the airline, you are required to submit the request through Q&A.

In the Q&A section you can select the involuntary option in order to make the request making clear that the customer has made a claim on his own.

Step 10

Solution

[Parent step: 2](#)

How to submit queries

Click on the “Q&A” option from the main menu on the top of the page.

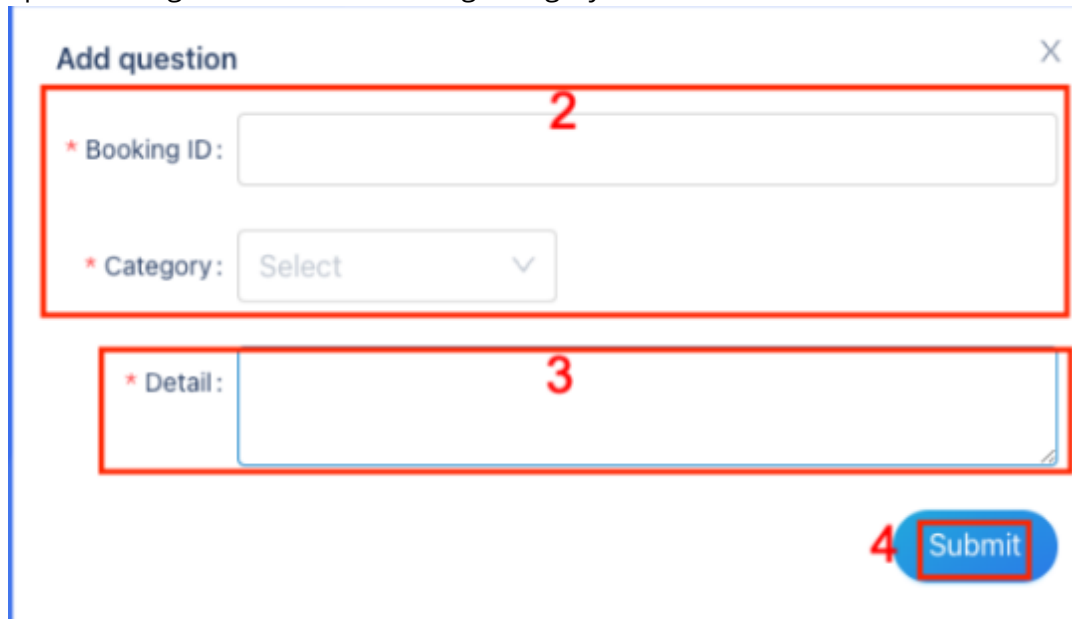

1. Click on “Add”.

Topic ▼ Topic Type ▼

Begin Date 📅 End Date 📅

Filter **+Add**

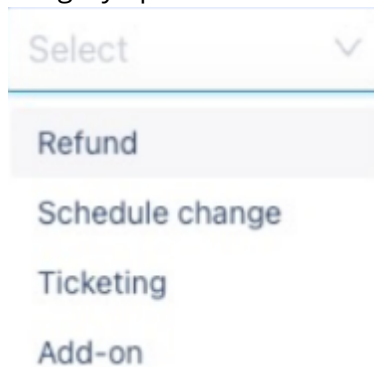

2. Input Booking ID and select booking Category.

The screenshot shows a form titled "Add question" with a close button (X) in the top right corner. The form contains three input fields and a submit button, each highlighted with a red box and a red number:

- 2**: A text input field for "Booking ID" with a red asterisk.
- 3**: A dropdown menu for "Category" with a red asterisk. The current selection is "Select".
- 4**: A text input field for "Detail" with a red asterisk.
- Submit**: A blue button with white text, highlighted with a red box.

Category options:

The screenshot shows a dropdown menu with the following options:

- Select
- Refund
- Schedule change
- Ticketing
- Add-on

3. Include relevant details about the request.

4. Click "Submit"

A new query created can be seen in the first line in the Q&A list page.

Another way that you can make a request is to go to the "Bookings" section, either find the booking (by the booking ID or the PNR) or select status "Completed" and find the relevant booking from the list.

Click on the "Q&A" button and then fill in the request's details as per the instructions above.

Through this way, the "Booking ID" field will be auto-filled and you will just have to insert the rest of the details.

Step 17

Solution

[Parent step: 3](#)

Void/ 24h Cancellation/ Voluntary Cancellation

In general, Void and 24 hour cancellation rule are not allowed according to Wizz Air's policy.

In case the customer has proceeded with a **void** or **24h cancellation** (due to airline's exception as per their claim) directly with the airline, it will not be reflected in the consolidator's portal. So in case you receive a request, where the customer claims they have already requested a refund from the airline, you need to submit a refund request through the Letsfly portal, in order for the consolidator to refund us so that we can process the payout of the amount.

For a **voluntary cancellation**, you need to refer the customer to the airline. In case the customer has proceeded with a cancellation according to fare rules directly with the airline, it will not be reflected in the consolidator's portal. So in case you receive a request, where the customer claims they have already requested a refund from the airline, you need to submit a refund request through the Letsfly portal, in order for the consolidator to refund us so that we can process the payout of the amount.

For refund due to **dupe** or due to **GDPR**, refer the customer to contact Wizz Air directly. In case the customer has made the claim on his own directly with the airline, you are required to submit the request through the Letsfly portal.

In the case of such a requests, you need to login on the consolidator's portal, click on "Q&A" and then "Refund". For more details, follow the link [here](#).

Step 22

Solution

Parent step: 18

Request for Involuntary full or partially refund

For an Involuntary refund, we have to follow the LCC Wizzair Guidelines - steps mentioned [here](#)

Note: For credentials with Wizzair via Letsfly [check here the flow](#).

ATTENTION: **NEVER** share the account details with the passengers as it is not allowed under any circumstances.

Wizzair is going to issue a credit to the Letsfly account. To convert the credit to a cash refund, use the guidelines mentioned under Cancellation to convert voucher to a cash refund - [here](#)

Once the request is submitted on the Wizzair website, we then need to submit a refund request to Letsfly for that you need to login on the Aerohub portal, as per below steps.

In case you receive a request, where the customer claims they have already requested a refund from the airline, you need to submit a refund request through the Letsfly portal, in order for the consolidator to refund us so that we can process the payout of the amount.

In the case of both the requests, you need to login on the consolidator's portal, click on "Q&A" and then "Refund".

Open the PNR by clicking on "Bookings" from the main menu.

Click "Submit", once all the information is provided.

You can search for the new flight details (the ones you would like to rebook) either through the main page of the portal, where you create the bookings (flight search) or through the airline's website.

Note: In case the customer has proceeded with a rebooking on their own directly with the airline (either on the website of the carrier or through direct contact), the change will not be reflected in the portal.

Parent step: 3

How to login on the Wizz Air website

As you are most probably already aware, in order to be able to proceed with any modification on Wizz Air's website, it is mandatory to have the credentials of the account that had been used during the booking creation. Up until now all those credentials were provided through the "LCC" tab in Edvin.

For Wizz Air issued through Letsfly, it was not possible to include these details within the Edvin environment due to technical blockers. As a result, only for Wizz Air bookings issued through Letsfly, the account credentials can be found within the Letsfly portal, after the booking has been identified there.

How to find the login details:

- 1. Login to the Aerohub portal
- 2. Click on the menu option "Bookings", on the top of the page
