Solution

Parent step: 1

Service Desk Support Instructions

The agent needs support for case handling and technical support.

1. Before escalating the case for support to the TL/SOD check Shelf page for finding the respective information.

If info in Shelf Handle the case

If no info in Shelf Escalate the case by sending to TL/SOD with all the necessary information.

2. If TL/SOD can help then no reason to create a ticket.

If not, TL/SOD logs in to the Service Desk.

3. TL/SOD selects the Outsourcing Support project and fills in the templates.

4. Creates the ticket for support agents to handle.

5. Inhouse Support Agent receives the ticket and assigns it under his/her name.

6. Inhouse Support Agent identifies the case for support.

If dependent from another department, creates Jira to the respective department and waits for resolution.

If not, handles the ticket and replies by providing all the necessary instructions/guidelines.

7.TL/SOD receives the reply and checks if further actions need to be taken.

If no, informs the agent that escalated the support case that is resolved.

If yes, assigns the case for handling.

8.TL/SOD will receive an email to evaluate the service provided.

Step-by-step service desk request

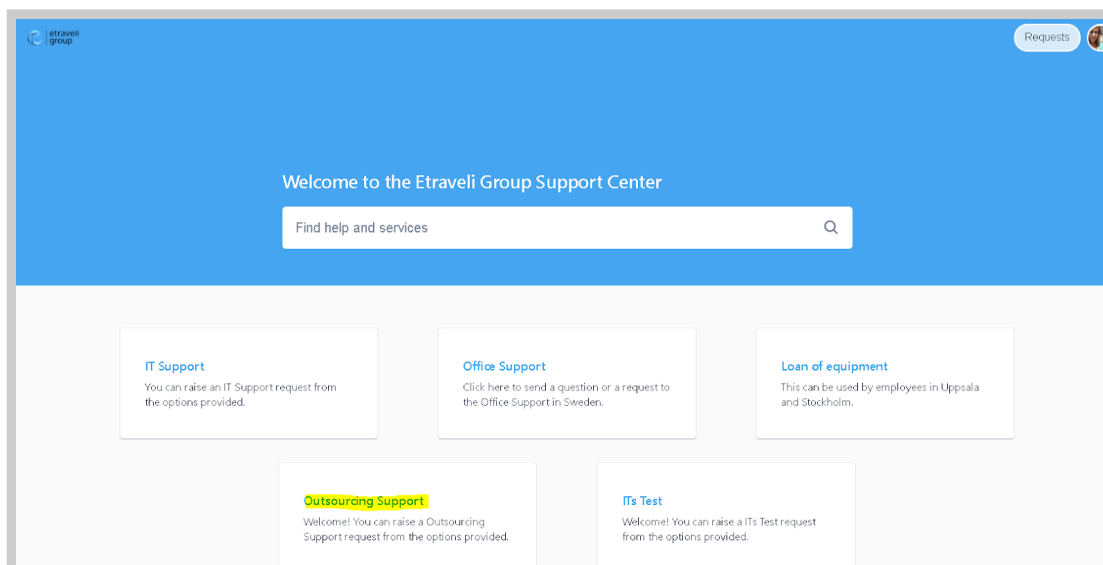

- **Log into Service Desk:**

Link: <https://etraveligroup.atlassian.net/servicedesk/customer/portals>

CNX: All the Leaders have an individual account to log in connected to their emails.

WNS: One shared account for the Leaders/ SOD that needs to log in and one mailbox Etraveli.Servicedesk@wns.com

- **Click on Outsourcing Support:**

- **Choose if your request is regarding FL or SC Support:**

Outsourcing Support

Welcome! You can raise a Outsourcing Support request from the options provided.

What can we help you with?

FL Support

All requests regarding Frontline

SC Support

If passenger is at the airport and SC has happened more than 24H before departure and passengers have not received any information.

Below you can find the different types of requests:

FL support

- **Authority / Reason Code:** Reason code for a possible charge or waive our involuntary service fee. (For human/tech errors make sure to check also [here](#)).
- **Technical Issue:** System Error / Technical Issue.
- **Fare hike:** We have a technical issue with the information not showing clearly when there is a fare hike.
- The hike will always be there, but the customer should have received a pop-up about the same and got an updated payment page with the new price. This needs to be checked with SO/TL, for a possible charge.
- **Guidelines:** General information about our procedures and guidelines for case handling.
- **Password Reset:** Reset the password (Portals, Edvin, etc.)
- **Pending Provider Booking:** Booking with status "Pending or Shopping" that needs to be checked with ticketing or LCC agents.
- **Refund Issue:** Refund application status or cancellation procedure.
- **Update Information:** Update / re-phrase guidelines, instructions, blog post, along with any relevant policies received in communication with YY/consolidator (FM policies or Edvin docs related info).

SC Support

- **Travel within 24 hours:** When the original travel departure is within 24 hours, and we fail to handle the request on time, so urgent in-house assistance is required.
- **Note:** If the passenger is over the phone/chat and the departure is within 24 hours, the interaction has to be transferred to the respective queue on Genesys.
- **VAN card issuance request:** When a VAN card issuance is required. OUT partners do not have access to create one.

- **ETG Escalation:** Request raised from a specific support task ETG Escalation.
 - **Guidelines:** Provide assistance and guidelines about different types of requests, such as Shelf content, Airline policy from Edvin, Password Reset, and/ or Tech Error assistance.
 - **Refund Issues:** Refund application status or cancellation procedure.
 - **Update Information:** Redirect the request to another department about different types of requests, such as Shelf content or Airline policy from Edvin to be updated, Tech Error which might affect different departments.
 - **Mishandling:** When an internal mishandling occurs and in-house assistance for resolution is required.
 - **Authority/ Reason code:** Provide authorization to proceed with an internal or airline flow and/or policy or reason code for an error is required.
 - **Farelogix:** Farelogix cases related to SC and handled end-to-end.
- **Apply your request by filling in the information needed.**
 - * Do not forget to fill in the "Raised by" section with the reporters' name.

Below you can find the correct priority categories to choose:

The customer at the airport / This priority category should be chosen in case the customer reaches out to us from the airport and the case needs to be handled as soon as possible with utmost urgency.

High-priority scenarios below:

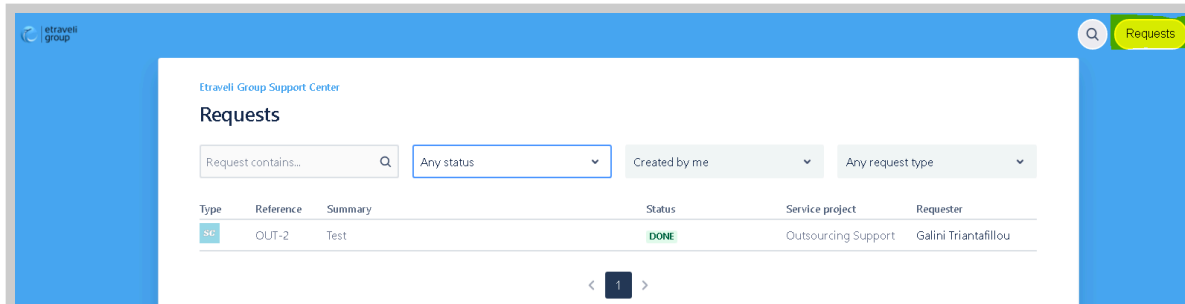

- Strong complaint from the customer/ threatens with a lawsuit
- The customer has contacted for the same request more than 3 times
- Rebooking cases which can lead to increasing loss
- Urgent claim due to deadline from supplier
- Customer departing within 3 days & request is unsolved

Medium priority scenarios below:

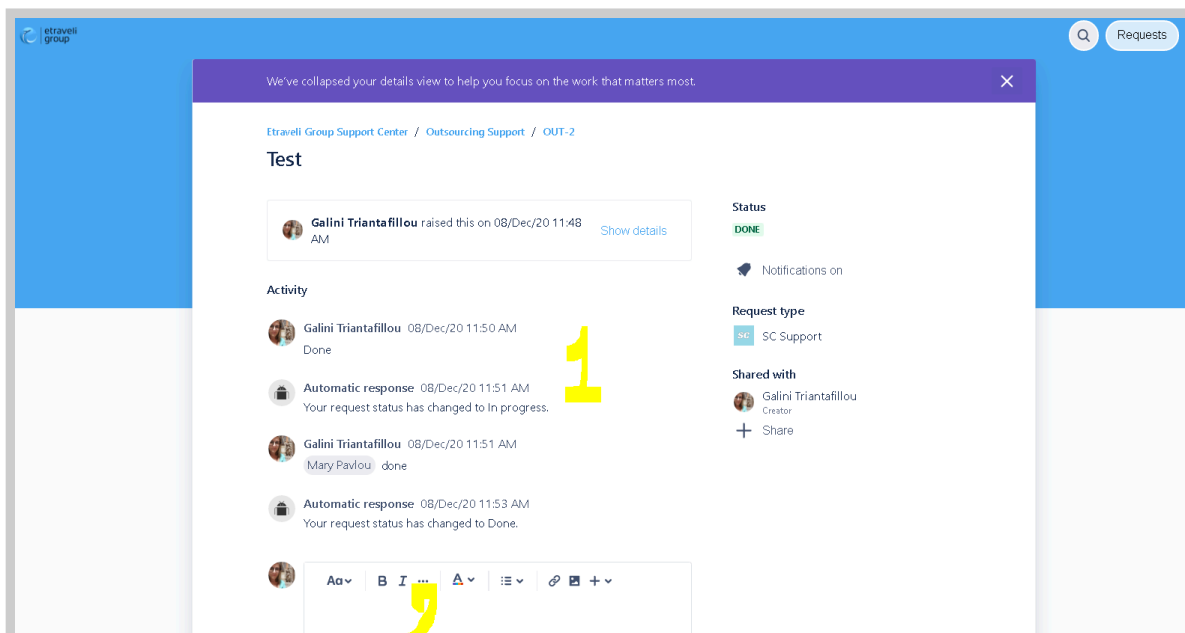

- The customer departs within 4-7 days and the request is unsolved
- Guidelines update needed
- Tech issues

Low-priority scenarios:

- Past dated flights
 - Cases where if left unhandled for a week, will not lead to loss/ extra loss
 - The customer has not reached out to us recently
- **You can find all applied requests by clicking on the top of the page "Requests":**

- Under number 1 you can find the history of the request and any comments or notes.
- Under number 2 the reporter can comment if requested or needed:

Step 3

Solution

Parent step: 1

How and when to communicate with ETG Quality Team

For any topics related to quality, the Quality team of the **OU partners** is to contact ETG Quality directly.

For any **confusion** regarding current processes and routines mentioned on Shelf, OU partners are to contact ETG Quality directly.

Step 4

Solution

Parent step: 1

How and when to communicate with ETG Process team

If there is a process or routine missing on Shelf, **the Quality team of the OU partners** is to contact the ETG process team.

Please note, that you are not to contact the ETG process team when you are confused about a current process or routine, only contact them when information is missing on Shelf.

Step 5

Solution

[Parent step: 1](#)

How and when to communicate with First Line & Second Line

When OU partners need to contact First Line or Second Line it must be initiated through the Jira Service Desk.
