

Redirect to CR for different channels

FL handling for customers that need to be redirected to the Customer Relations team

1. ? General Info
2. ☑ Phone Handling
3. ☑ Email handling for Genesys
4. ☑ Chat handling

Step 1 - Starting point

Question

No linked steps

General Info

Process will be effective on Monday 30/05/2022

Two different types of CR contact forms are available with the new e track structure:

1. For ETG customers --> [sample here](#) --> NOT FOR USE
2. For B.com customers (serko and phase 1) --> [sample here](#) --> NOT FOR USE

When the FL agents are receiving a Claim case that needs to be handled by CR they will redirect the customer to the CR contact form. CR agents will take over from there and handle the claim requests.

Always check the previous errands in Edvin to make sure that the customer has not reached out to CR previously and was redirected back to FL due to the fact that the case is not considered a Claim.

***** If you see in Edvin that either of the 2 emails with the title: "Customer Claim-Direct" or "Customer Claim-Redirected by FL" has already been sent then the case should be handled within FL. *****

Redirect to CR for different channels

Step 2

Solution

Parent step: 1

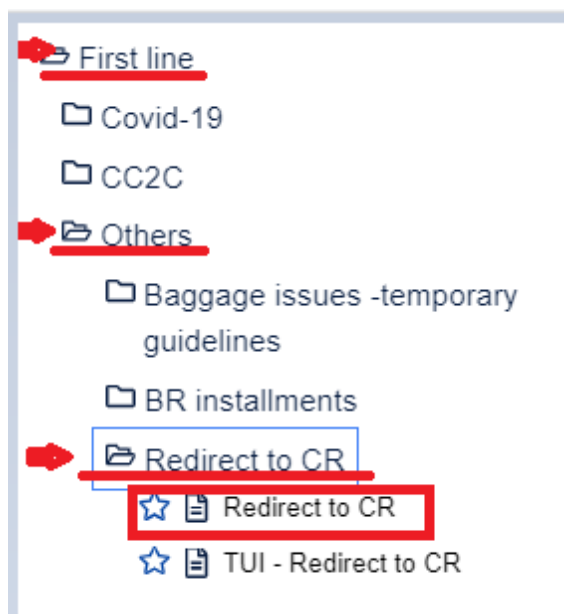

Phone Handling

last update: 15 May 2023

1. To identify if Customer Relations must resolve a customer's request you need to check the below checklist. **Only** if the answer to all the questions below is YES can you redirect the customer to CR.
 - The customer demands compensation (not refund delays/no fee complaint) due to errors caused by us.
 - This is a verified claim based on the Shelf page "[How to distinguish a complaint VS a claim](#)".
 - The case cannot be resolved with the help of Coordinators/Leaders/SOD. ** If the customer contacts us before the departure, it may be still possible for an FL Support agent to proceed with the Retail loss process. So, the FL agent should check with Coordinators/Leaders/SOD and send the case to Support for further handling, if needed.*
2. If indeed a claim then proceed with the following actions.
3. Inform the customers that an email will be forwarded redirecting them to complete a form for raising the issue to our CR department
4. Send a no-reply email from Edvin by using the respective template based on the brand of the order:

Order brand template	Template titleholder	Folder location in Edvin
ETG/B.com phase 0	"Redirect to CR"	First line - Others - Redirect to CR
B.com phase 1/B.com Serko	"Booking.com- Redirect to CR"	Booking.com - First line - Other
TUI	"TUI- Redirect to CR"	First line - Others - Redirect to CR
Business class.com	"Businessclass.com - Redirect to CR"	First line - Others - Redirect to CR

i.e: the ETG/B.com phase 0 template can be found in Edvin below path:

For all the above scenarios the respective CR contact form will be autofilled by Edvin based on the language selected by the agent in the template and the configurations made.

5. Register errand with:

Channel 29: Redirect to CR

Category 54. Claim form sent

Type Choose the reason of escalation

Action Choose the route where we received the request from

* If the case is redirected to CR by a Support agent, the correct action to select is 4:Support.

Step 3

Solution

Parent step: 1

Email handling for Genesys

1.

In order to identify if a customer's request must be resolved by Customer Relations you need to check the below checklist. **Only** if the answer to all the below questions is YES you can redirect the customer to CR.

- Customer demands compensation (not refund delays/no fee complaint) due to errors caused by us.
- This is a verified claim based on the Shelf page "[How to distinguish a complaint VS a claim](#)".
- Case cannot be resolved with the help of Coordinators/Leaders/SOD .

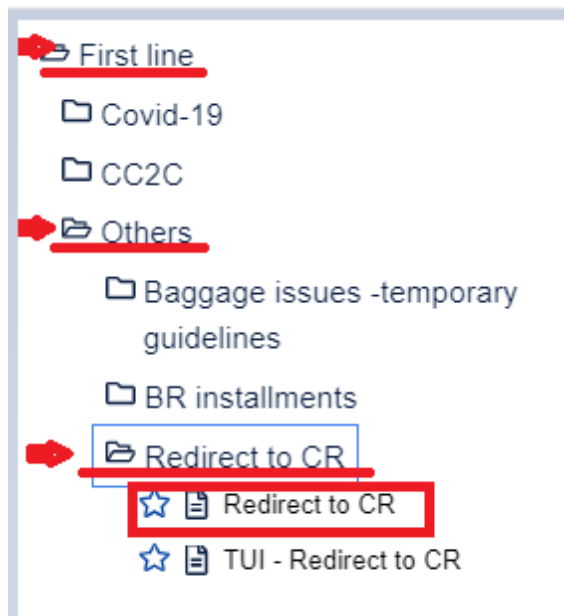

2. If indeed a claim then proceed with the following actions.

3. Close the Genesys interaction.

4. Send no-reply email from Edvin by using the respective template based on the brand of the order:

Order brand	Template title	Folder location in Edvin
ETG/B.com phase 0	"Redirect to CR"	First line - Others - Redirect to CR
B.com phase 1/B.com Serko	"Booking.com- Redirect to CR"	Booking.com - First line - Other
TUI	"TUI- Redirect to CR"	First line - Others - Redirect to CR
Businessclass.com	"Businessclass.com - Redirect to CR"	First line - Others - Redirect to CR

i.e: ETG/B.com phase 0 template can be found in Edvin by following below path:

For all the above scenarios the respective CR contact form will be autofilled by Edvin based on the language selected by the agent in the template and the configurations made.

5. Register errand with:

Channel 29: Redirect to CR

Category 54. Claim form sent

Type Choose the reason of escalation

Action Choose the route where we received the request from

* If the case is redirected to CR by a Support agent, the correct action to select is 4:Support.

Step 4

Solution

Parent step: 1

Chat handling

1. In order to identify if a customer's request must be resolved by Customer Relations you need to check the below checklist. **Only** if the answer to all the below questions is YES you can redirect the customer to CR.

- Customer demands compensation (not refund delays/no fee complaint) due to errors caused by us.
- This is a verified claim based on the Shelf page "[How to distinguish a complaint VS a claim](#)".
- Case cannot be resolved with the help of Coordinators/Leaders/SOD .

2. If indeed a claim then proceed with the following actions.

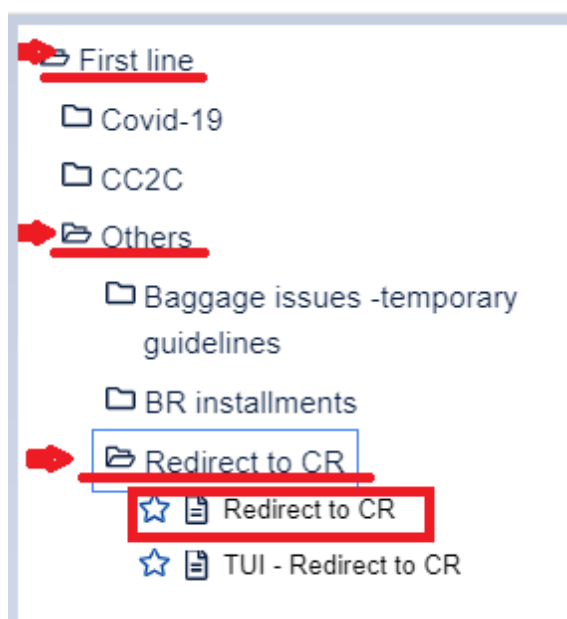

3. Inform the customer that the official claim form will be sent via email and close Genesys interaction.

- Use designated chat script **[Chat] - Redirect to CR/bag/seat claim ETG/B.com**

4. Send no-reply email from Edvin by using the respective template based on the brand of the order:

Order brand	Template title	Folder location in Edvin
ETG/B.com phase 0	"Redirect to CR"	First line - Others - Redirect to CR
B.com phase 1/B.com Serko	"Booking.com- Redirect to CR"	Booking.com - First line - Other
TUI	"TUI- Redirect to CR"	First line - Others - Redirect to CR
Businessclass.com	"Businessclass.com - Redirect to CR"	First line - Others - Redirect to CR

i.e: ETG/B.com phase 0 template can be found in Edvin by following below path:

For all the above scenarios the respective CR contact form will be autofilled by Edvin based on the language selected by the agent in the template and the configurations made.

5. Register errand with:

Channel 29: Redirect to CR

Category 54. Claim form sent

Type Choose the reason of escalation

Action Choose the route where we received the request from

* If the case is redirected to CR by a Support agent, the correct action to select is 4:Support.
