Solution Parent step: 1

Vision and scope

Our vision is to provide e2e Self Service Rebooking to our customers through MYP/ My Bookings for the three main GDS systems:

- Amadeus
- Sabre
- Galileo

As we are talking about 3 systems and phases of providing the information. The project will include the following phases:

Phase 1A:

Eligibility check: In this phase the customers will be provided with the option to check if they can change their tickets or not and be informed regarding the minimum fee (our fee) that needs to be covered in order to proceed with the change.

Phase 1B:

Price Review: In this phase the customers will be able to review and get full information about date changes.

Phase 2:

Reissue: In this phase the customers will be able to proceed with changes directly through our website.

Step 3

Solution

Parent step: 1

Currently out of scope

Last updated: 06 August 2024

- Departure in less than 8 hours
- Partially flown
- Segments status is not HK
- Ticket coupon status is not open
- LCC/Portals (except Farelogix - Lufthansa, Amadeus NDC-X)

Step 4

Solution

Parent step: 1

Eligibility check phase

Last updated: 18 July 2024

Systems supported: Amadeus, Sabre, Travelport Galileo, Farelogix (Lufthansa), Amadeus NDC-X.

Markets: All

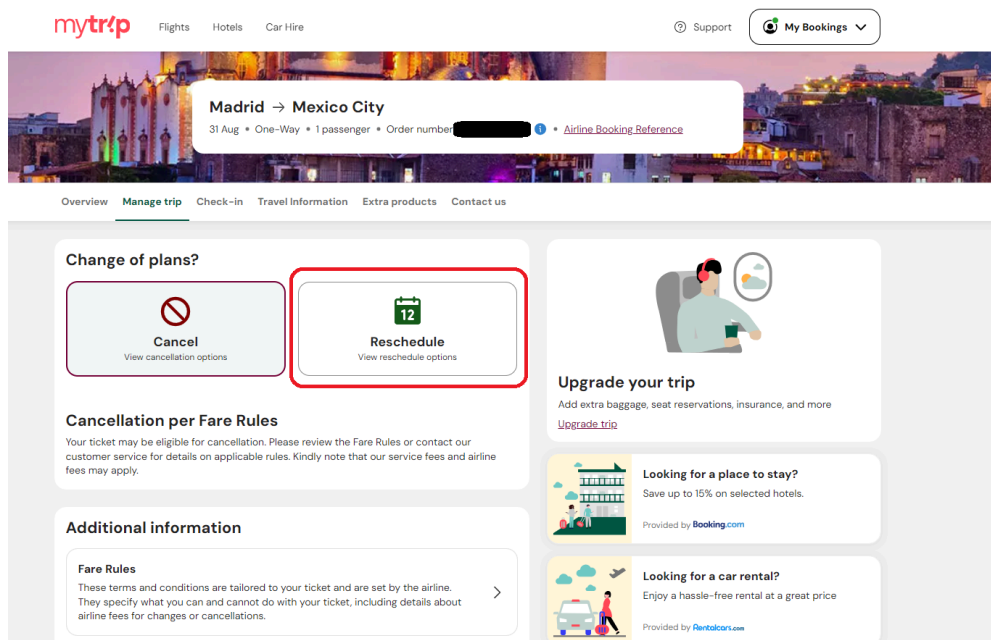

GDS bookings (Single PNR/Multi PNRs/Open Jaw), Farelogix-Lufthansa & Amadeus NDC-X:

When the customers log in MYP/My Bookings they are provided with the "Manage Trip" option. They are first informed if the ticket is changeable, and if the changes are permitted they are then provided with the minimum fees/ per passenger (our fees) that need to be covered to proceed with the change. If the customers want to proceed with the change they are advised to reach us either by phone or chat. Now, it is possible for all markets to "Orders with Ancillaries". Therefore, customers having orders with ancillaries will be able to see "Eligibility" and "Result", and if the change is permitted, they can proceed with "Price Review".

Example for Multi PNRs (GDS/Farelogix LHG/Amadeus NDCx):

PNR 1 - Change Permitted + PNR 2 - Change Permitted = Change Permitted for eligibility.

Please note that we register and handle requests submitted through our Contact Us page. For security purposes, we advise reaching out exclusively through the specified channels provided on our website.

LCC/Portal bookings (except Farelogix-Lufthansa & Amadeus NDC-X as the "Eligibility check phase" is now applicable):

Since the LCC/Portal bookings are out of scope the customers will be redirected to reach us or the airline (if we are unable to proceed) for more information regarding the change.

In cases where we are unable to proceed with the change, the following message appears:

Please keep in mind that in case we have a residual amount, the system do not offer the breakdown to the customer but instead presents the sum of airline's penalty and the fare difference as one amount named as "Airline fees" and our fees as another.

When the customer proceeds through self-service rebooking and reaches the final step to contact CS through chat, then the selected flights will be sent to Genesys (Chat).

Once we have the information for the chosen flights, we should verify the flights with the customer instead of requesting their preferred flights again from the beginning.

Please note that the chat interactions coming through Self-service rebooking are being prioritized in Genesys.

Feedback:

- Inhouse: Share any feedback from customers if something is not working in the slack room self-service-rebooking-feedback-channel
- CNX and WNS agents should share feedback with their respective supervisors/leaders or manager.
