Sitejabber

Sitejabber is a digital platform that brings Businesses and Consumers together for better cooperation from both parties. In Sitejabber, the Customers publish their reviews for our products and services, some of which can be highly complementary and others highly critical. The more our customers use the platform and share their opinions, the better scope we get, in order to enhance our business growth.

Although we do receive criticism on Sitejabber, we should answer criticism point-by-point and write in a positive and constructive tone. You should never forget that these are our customers, and we want them to use our services and products again.

Sitejabber is NOT handled as a support channel, this is only one of our review sites. We must reply to only 1-3 star reviews. In case you come upon a review that needs further communication with the customer (ex. rebooking case), please advise the customer to contact us through the usual channels (phone, website form).

Note: No tags are to be used in Sitejabber.

Question	
1. How to login and locate the reviews	Step 2
2. Handling of the reviews	Step 3
3. Standard replies- Templates	Step 4
4. How to register errands	Step 5

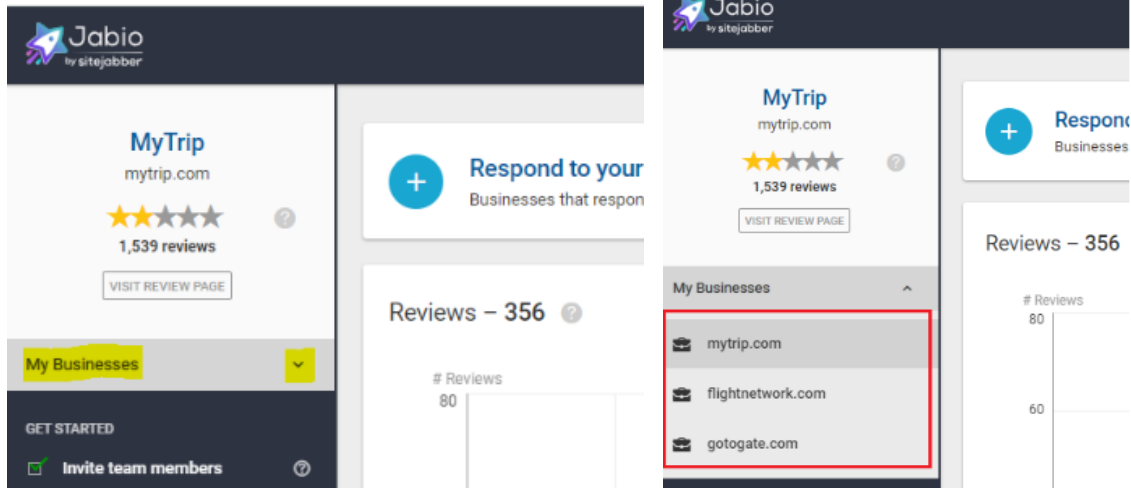

Step 2

Solution

Parent step: 1

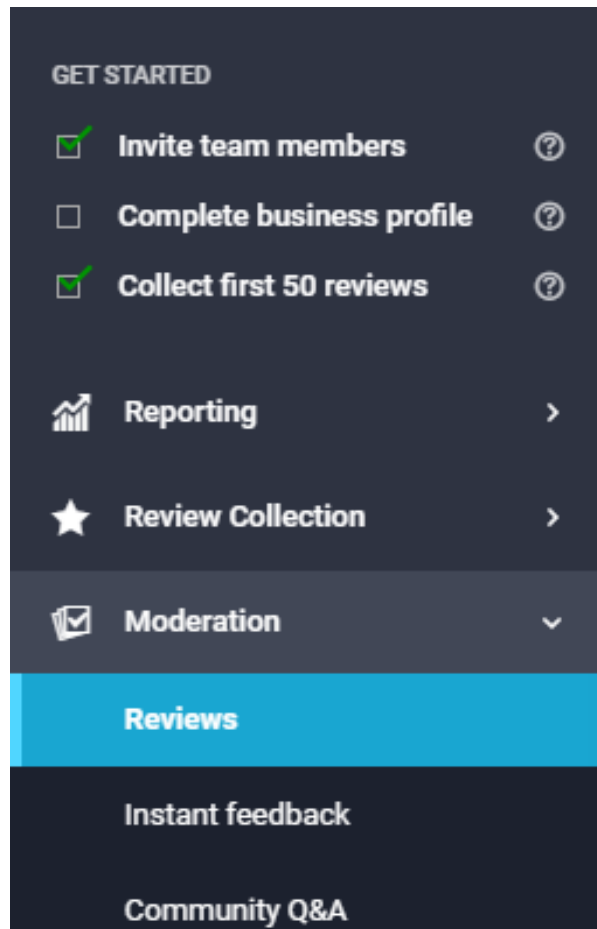

How to login and locate the reviews

1. Please use the link: <https://biz.sitejabber.com/login>
2. Login to the account using the credentials you will be provided.
3. Select the brand/ domain you are assigned to work on. To do so, click on the row next to "**My business**" to open the dropdown menu and select the brand.

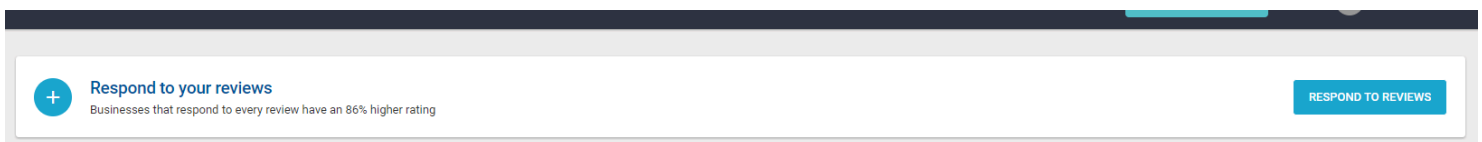

How to locate the reviews

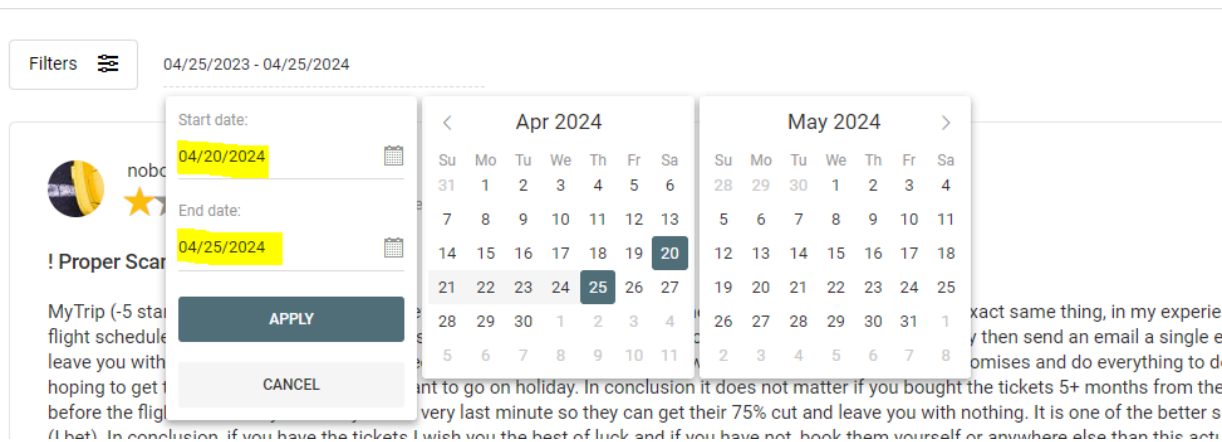

- Select "**Moderations**" and then "**Reviews**" from the options on the left side of the page

or click on "**Respond to reviews**" at the top of the page

- Click on the dates in order to select the timeframe of the reviews. In the calendar, you have to select based on the current date the reviews starting from the closest Saturday (ex. If you are assigned to the Sitejabber reviews on Thursday 25th of April, you will need to start checking from Saturday 20th of April, as highlighted on the screenshot below).

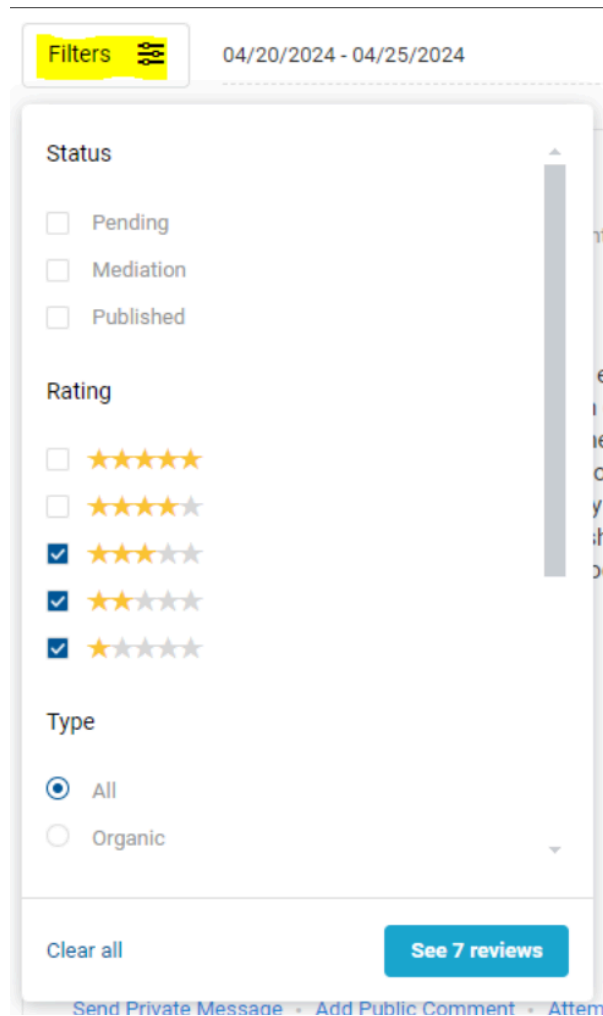

- Once you have selected the range of dates, you may start working on the reviews. Follow the guidelines under ["Handling of the reviews"](#).

Handling of the reviews

How to filter the reviews:

If the volume that needs to be handled is not excessive, you can skip the filtering per review category and reply accordingly as per the instructions. Otherwise, proceed with filtering the reviews as per the guidelines below:

1. Select "Filters" to filter the category you will be working on.
2. Only 1-3 star reviews should be handled and we must respond to them. So, select these options under "Rating" as shown below. Note: Do not filter 4-5 star reviews since no response is needed.

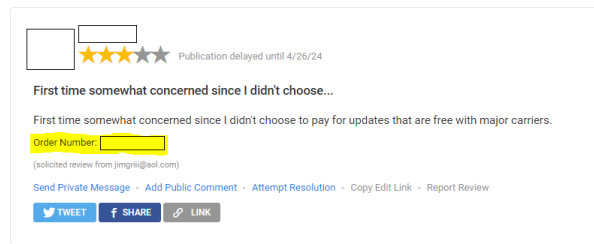

The screenshot shows a filtering interface for reviews. At the top, there is a 'Filters' button with a filter icon and a date range '04/20/2024 - 04/25/2024'. Below this, the 'Status' section has three options: 'Pending', 'Mediation', and 'Published', all of which are unchecked. The 'Rating' section has five star-based options: '5 stars', '4 stars', '3 stars', '2 stars', and '1 star'. The '3 stars', '2 stars', and '1 star' options are checked. The 'Type' section has two options: 'All' (selected) and 'Organic'. At the bottom, there is a 'Clear all' link and a 'See 7 reviews' button. Below the filter panel, there are links for 'Send Private Message', 'Add Public Comment', and 'Attempt to resolve'.

How to reply to the reviews:

General guidelines:

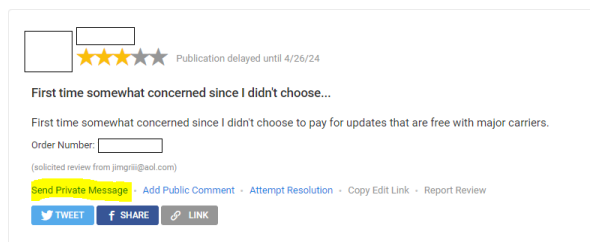

- If there is an order number or any booking details, make the investigation normally and reply to the customer. Use the order number provided to open the order in Edvin. (Usually reviews come after the

event the customer refers to.)

- If there is no order number in the review, we request booking details from the reviewer and leave an errand in 'Register New Errand' inserting only the name and the type of request.
- For requests on refund delays through Sitejabber, we have no special priority other than in the normal requests. If a case needs to be escalated to SL, use the same errand path as in the other requests.
- We never send a direct apology to the reviews as any reply of such can be used legally against us. All the replies should have generic phrasing and wording. You could use the phrase though 'We are sorry you are dissatisfied with the service provided.'.
- For 3-star reviews it is usually not possible to reply through a template. If there is a request we reply the same way we do on the 1-2 star reviews or if it has a positive tone you can thank them

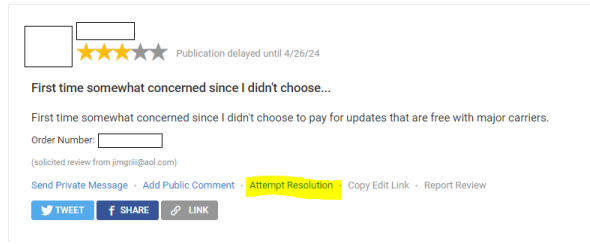

> If you expect an answer from the reviewer, like in the scenario where no booking number is mentioned in the review, you should click on **"Send private message"**

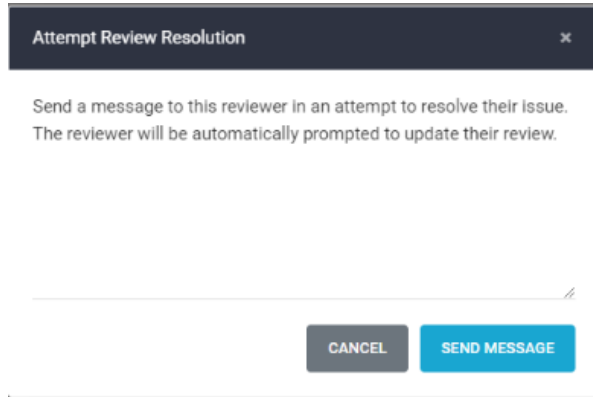

A new window will appear with an interface that resembles an email. You can have back and forth emails with the customer this way until the case is resolved.

A screenshot of a 'Send a message to' dialog box. It has a dark header with the text 'Send a message to' and a close button. Below the header, there are two text input fields: 'Subject:' and 'Body:'. At the bottom right, there are two buttons: 'CANCEL' and 'SUBMIT'.

>If you do not expect an answer from the reviewer (or if you have received the information you wanted via **"Send private message"** option), you should send a reply via the **"Attempt resolution"** option.

Once **"Attempt resolution"** is selected, the window shown below will appear.

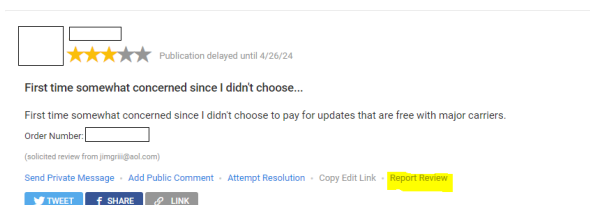

Once you send the reply to the reviewer, Sitejabber will automatically send an email to the customer, in order to change his review if his case is resolved. Even if the customer does not respond to it, there will be a note in the review that *"MyTrip/Flightnetwork/Gotogate has reached out to the customer using the Sitejabber Moderation Tools, but the customer chose not to respond."*

How to report a review

Until further notice, please avoid reporting reviews, unless the comment sent is very aggressive and racist or if the order number mentioned in the review does not match ETG's order numbers. Critical thinking should always be used in such cases.

In order to report the review, click on **"Report review"**.

Select from the dropdown menu the most suitable reason for reporting the review:

- Review contains profanity, lewdness, or bigotry
- Review contains personal information
- Review contains personal attacks
- Review describes second-hand experience
- Review was intended for another business

Select the reason **"Other"** when the order number provided does not match ETG's order numbers.

Report Review

Please explain why you are reporting this review

SUBMIT

When we report a review, the Sitejabber team investigates the reporting. If the report is approved the review gets deleted and so is the rating, if the Sitejabber team has any objection about the reporting of the review, they will reply to us.

ATTENTION: You should be reporting reviews if they are threatful towards a company's individual - Select reason :Review contains personal attacks in this case.

Once the incident has been reported to Sitejabber, it is also very important that you report it to your Manager as well.
