# Step by Step - RL Jira due to Human Error

Here you will find step by step instructions on how to handle a 'Human Error' issue in Jira.

1. Human Error Jira
2. Manager/SV | Scenario 1 & 2
3. Manager/SV | Escalation from FL/QA
4. Manager/SV - Escalation from an agent
5. FL Agent | Part 1 & 2

## Step 1 - Starting point

**Question** — No linked steps

## "Human Error"

**This issue type should be used when** mishandling has occurred and authorization is needed for a reason code from the manager or supervisor.

***Important!***
A separate JIRA issue must be created for each Order ID. If you have 2 or more related orders, create separate issues and link them.

### *Human error | Fields description*

| Field | Value | Description | Used by |
|---|---|---|---|
| Summary | Human error | Pre-filled text. Don't need to be updated | Pre-filled |
| Reporter's Location | Select one of the available options:<br>• ATH<br>• LPA<br>• ETG BOM<br>• ETG PNQ<br>• CNX CAI<br>• WNS DLC<br>• WNS GGN<br>• WNS PNQ | | Reporter |
| Priority | Select one of the options:<br>• Normal<br>• Major<br>• Critical | Normal - if RL=0<br>Major - if RL=0 and reason code required<br>Critical - if reason code is required and the case is urgent | Reporter |
| Order ID | | from Edvin | Reporter |
| Escalated from SL | Type: Select list (single choice)<br>Available options:<br>• Yes<br>• No | Reporter | |
| Description | | Describe the situation (2-3 sentences) | Reporter |
| Assignee | | | Reporter, QA, Leaders |
| Decision maker | | Name of the person who took a decision | Leaders |
| Related process | Select one of the available options:<br>• Rebooking<br>• Cancellation<br>• Refund<br>• Schedule Change<br>• NACO<br>• Ancillary<br>• Technical Issue<br>• Other | | Leaders |
| Estimated Cost (EUR) | eg. 30 | add "0" if there is no retail loss | Leaders |
| Tag | Select one of the available options:<br>• Focus on:& Knowledge<br>• Focus<br>• Focus on:& Backlog | Add a reason why the agent did a mistake | Leaders |
| Error category | Select one of the available options:<br>• Incorrect queue placement ( Double/Wrong or:& Unnecessary )<br>• Wrong/incomplete info to BO ( No waiver/DSI/Endorsement/VV PE)<br>• Incorrect understanding of customer's request<br>• Incorrect fare rules interpretation<br>• Incorrect Edvin docs interpretation<br>• Incorrect interpretation of FM policy<br>• Cancelling wrong customer/itinerary<br>• Order not modified/sold<br>• Wrong ssr reason used<br>• Incorrect fees calculation (ETG/YY/wrong product<br>• Promising the name correction to the customer while it is not possible<br>• Incorrect pricing (ATC ) wrong amount charged (Grand total instead of Total add cell amount)<br>• Incorrect pricing (manual) ( fare/tax diff, YY PE not collected )<br>• ATC not used/wrong command<br>• Other pricing errors (wrong OI/D/PC, Pricing/segments not saved)<br>• Cancelling/rebooking wrong customer/itinerary<br>• Incomplete/incorrect/missing ticketing template<br>• Incorrect PL handling ( incorrect/incomplete info in PL, PL not handled on time )<br>• Missing to identify SC<br>• Incorrect SC policy interpretation<br>• Cancelling wrong segments<br>• Other | | Leaders |
| Resolution note | | Justify your decision. Add a short comment regarding what happened and the name of the agent who made a mistake. In case of Insufficient Process or unclear guidelines, OPPR jira should be raised and linked to the current issue | Leaders |
| Reason code | (Select from the available options) | Add it if needed | Leaders |
| Department | Select one of the available options:<br>• FL<br>• FL/SC<br>• BO<br>• BO\TKT<br>• BO\Refund<br>• CR<br>• Other | Department of the agent responsible for the error | Leaders |
| Location | Select one of the available options:<br>• ATH<br>• LPA<br>• ETG BOM<br>• ETG PNQ<br>• CNX CAI<br>• WNS DLC<br>• WNS GGN<br>• WNS PNQ | Location of the agent, responsible for the error | Leaders |
| Dispute | Select one of the available options:<br>• Yes<br>• No | YES - if you disagree with the QA review outcome. It was not your agent's mistake<br>NO - you agree with QA. It was your agent's mistake | Leaders |
| Date of error | | date when mishandling occurred.<br>Use the calendar icon to select | QA |
| QA review status | Select one of the available options:<br>• Under review<br>• Accepted<br>• Rejected | Change it to Under review when you just started reviewing the case<br>Select Accepted if you're agreeing with TL's decision<br>Select Rejected if you disagree with TL's decision | QA |
| QA agent | | - | QA |
| QA Resolution note | | Add a short comment regarding the outcome of your review | QA |

**Human Error Jira**

1. FL Agent — Step 5
2. Manager/SV — Step 2

## Step 2

**Question** — Parent step: 1

**Manager/SV | Scenario 1 & 2**

1. Escalation from an agent — Step 4
2. Escalation from FL/QA — Step 3

## Step 3

**Solution** — Parent step: 2

### Manager/SV | Escalation from FL/QA

1. *Pick up the issue from the respective section of the Jira Dashboard*
2. *Review the case*

**Scenario 2.1. (FL/QA Review):** You received feedback from FL/QA team and you agree that it was your agent mistake

- *Pick up the issue from the respective section of the Jira Dashboard*
- *Change value in "Dispute" field (in "Details") to* **NO**
- *In the* ***Comment*** *section, write short feedback to your agent*
- *Assign the issue to the agent who did a mistake*
- *Once the agent is informed, the issue status should be changed to "**Closed**" (either by the manager or the agent)*

**Scenario 2.2. (FL/QA Review):** You received feedback from FL/QA team and you disagree that it was your agent mistake

- *Pick up the issue from the respective section of the Jira Dashboard*
- *Change value in "Dispute" field (in "Details") to* **YES**
- *In the* ***Comment*** *section, write your comments for FL/QA team*
- *Remove your name from* ***Assignee***
- *Change issue status to "**Dispute**"*
- *Proceed with scenario 2.1 as soon as you come to any agreement with FL/QA team*
- ***DO NOT*** *change Dispute field to* ***NOR***

## Step 4

**Solution** — Parent step: 2

### Manager/SV - Escalation from an agent

1. *Pick up the issue from the respective section of the* ***Retail loss Jira Dashboard***
2. *Change Jira status to "**Escalation TL#1**"*
3. *Assign a case to yourself (Only for 1H in-house)*
4. *Review reporter's name from watchers*
5. *Review the case*
6. *Select "**Approved**" or "**Reject**" to change the status of the issue and fill in all the fields that will appear in the popup*
   1. ***Related process:*** *Select from the drop-down menu*
   2. ***Error category:*** *Select from the drop-down menu*
   3. ***Tag:*** *Add a reason why the agent did a mistake*
   4. ***Estimated Cost (EUR)***
   5. ***Decision maker:*** *Name of the person who took a decision*
   6. ***Reason code:*** *(if needed) Select from the drop-down menu*
   7. *Discount code: yes/no*
   8. ***Department:*** *Department of the agent, responsible for the error*
   9. ***Location:*** *Select from the drop-down menu location of the agent, responsible for the error*
   10. ***Resolution note:*** *add a short comment regarding what happened and the name of the agent who did a mistake*
   11. *If a* ***Discount code was issued,*** *send an email to the customer and close the issue. Otherwise:*
   12. ***Assign*** *the issue to the agent who reported it to you and add a comment with the next steps*
7. *Register errand in Edvin with a reason code (check* here *how to add it)*

If in the meantime:

- the customer proceeds with a chargeback, close the Jira by selecting the status **"Chargeback"**. No further action is required.
- the case is fully taken over or handled by CR, close the Jira by selecting the status **"Handled by CR"**. No further action is required.
- you notice that there is a duplicate RL Jira, follow the guidelines described in "Dupe RL Jiras"

Attention: If a retail loss recovery is needed, check the steps here.

## Step 5

**Solution** — Parent step: 1

### FL Agent | Part 1 & 2

Part 1:

1. ***Send case for the escalation to your manager/SV***
   1. *Go to Jira and click* ***[Create]***
   2. *Submit information as below:*
      1. ***Project:*** *Retail loss (RL)*
      2. ***Type:*** *Human error*
      3. ***Reporter's Location:*** *Select your location from the drop-down menu*
      4. ***Customer at the airport:*** *Select Yes only for cases when the passenger has contacted us when they are already at the airport and cannot board their flight due to a mishandling. (The "Passengers at the airport" process can be found here.)*
      5. ***Escalated from SL:*** *Select yes if the case was escalated by SL*
      6. ***Description:*** *Describe the situation (2-3 sentence)*
      7. ***Priority:*** *Major if RL>0 and reason code required, and* ***Critical*** *if reason code required and case is urgent*
      8. ***Order ID:*** *from Edvin. Make sure to insert the 6-digit Order reference from Edvin as shown in the screenshot. Do not add the numeric Customer Order Reference or the Booking.com reference.*

      9. ***Assignee:*** *Assign case to your team lead/manager (In inhouse agents will keep it empty)*
   3. *Click* ***[Create]***
2. ***Add fee to Edvin errand***

Important: If at any point while handling the case or waiting for the Manager/TL/SV to revert with a decision you notice that:

- the customer proceeds with a chargeback, close the Jira by selecting the status **"Chargeback"**. No further action is required.
- the case is fully taken over or handled by CR, close the Jira by selecting the status **"Handled by CR"**. No further action is required.
- you notice that there is a duplicate RL Jira, follow the guidelines described in "Dupe RL Jiras"

Once the Manager/SV has picked up your issue and worked on it, they will assign it back to you. From there you are to then continue with the second part of instructions:

Part 2:

(RL>0)

- *Pick up the issue from the respective section of the Jira Dashboard*
- *Review the comment from TL and handle the case accordingly*
- *Once all actions are completed, change issue status to "**Done**". **ATTENTION!** Tha Step is important in order to signify that the RL Jira has been resolved and it can be reviewed by the Quality team. Do not forget it!!*

***Note:***

- *If you are not able to handle the cases assigned to you until the end of your shift => change the issue status to "**Abandoned**"*
- *If you were assigned to the case where reason code approval was requested and issue status is "**Abandoned**":*
  - *Check comments in jira for guidelines from the manager*
  - *Inform PAX*
  - *Handle the case accordingly*
  - *Change issue status to "**Done**"*

Feedback to agent

- *Pick up the issue from the respective section of the Jira Dashboard*
- *Review the comment from TL and change issue status to "**Closed**"*

Attention: If the amount of the retail loss is equal or higher than 200 EUR, the retail loss recovery steps need to be followed. More information can be found here for all locations.
