

Step by Step - RL Jira due to Tech Error

Here you will find step by step instructions on how to handle a retail loss due to tech error.

- 1. [Tech Error Jira](#)
- 2. [Manager/SV](#)
- 3. [FL Agent | Part 1 & 2](#)

Step 1 - Starting point

 Question

No linked steps

"Technical Error"

This issue type should be used when authorization is needed for a reason code from the manager or supervisor due to a tech error.

Important!
A separate JIRA issue must be created for each Order ID. If you have 2 or more orders which are connected, create separate issues and link them.

Tech error | Fields description

Field	Value	Description	Used by
Summary	Tech error	Pre-filled text. Don't need to be updated	Pre-filled
Reporter's Location	Select one of the available options: • ATH • UPA • ETG BOM • ETG PNQ • CNX CAI • WNS DLC • WNS GGN • WNS PNQ		Reporter

Resolution note		Add a short comment regarding what happened	Leaders

Tech Error Jira

Please choose from the below menu of options based on your role:

1. FL Agent Step 3
2. Manager/SV Step 2

Manager/SV

1. Pick up the issue from the respective section of the **Retail loss Jira Dashboard**
2. Change Jira status to **"Under Review"**
3. Assign a case to yourself (**Only for IN in-house**)
4. Review the case
5. Select **"Approve"** or **"Reject"** to change the status of the issue and fill in all the fields that will appear in the popup:
 1. **Estimated Cost:** in EUR
 2. **Decision maker:** Name of the person who took a decision
 3. **Reason code:** Select from the drop-down menu
 4. **Discount code:** yes/no
 5. **Resolution note:** short summary (conclusion) from your review
6. **If a Discount code was issued**, send an email to the customer and close the Issue. Otherwise:
7. **Assign** the issue to the agent who reported it to you and add a comment with the next steps
8. Register errand in Edwin with a reason code if needed

Solution Step 3 Parent step: 1

Part 1:

1. Send case for the escalation to your manager/SV
 1. Go to [Jira](#) and click **[Create]**
 2. Submit information as below:
 1. **Project:** Retail loss (RL)
 2. **Type:** Tech error
 3. **Reporter's Location:** Select your location from the drop-down menu
 4. **Description:** Describe the situation (2-3 sentence)
 5. **Priority:** **Major** or **Critical** if reason code required and case is urgent
 6. **Customer at the airport:** Select **Yes** only for cases when the passenger has contacted us when they are already at the airport and cannot board their flight due to a mishandling. (The "Passenger at the airport" reason code is not applicable for cases where the passenger has not yet reached the airport)
 7. **Order ID:** from Edwin. Make sure to insert the 6-digit Order reference from Edwin, as shown in the screenshot. Do not add the numeric Customer Order Reference or the Booking.com reference.

Order		
Customer Order Reference	1	7
Order ID/Reference	1	5
D365 Reference		

Important! If at any point while handling the case or waiting for the Manager/TL/SV to revert with a decision you notice that:

Once the Manager/SV has picked up your issue and worked on it, they will assign it back to you. From there you are to then continue with the second part of instructions:

Part 2:

1. Pick up the issue from the respective section of the Jira Dashboard
2. Review the comment from TL and handle the case accordingly
3. Once all actions are completed, change issue status to **"Done"**. **ATTENTION:** This Step is important in order to signify that the RL Jira has been resolved and it can be reviewed by the Quality team. Do not f

Note:

- If you are not able to handle assigned the cases assigned to you until the end of your shift => change issue status to **"Abandoned"**
- If you were assigned to the case where reason code approval was requested and issue status is **"Abandoned"**:
 - Check comments in a Jira for guidelines from the manager
 - Inform PAX
 - Handle the case accordingly
 - Change issue status to **"Done"**
