

Step by step - New Ticket Sell in GDS

Guidelines on creating a new PNR in Amadeus, Sabre or Galileo based on specified New Ticket Sell scenario.

1. ? New Ticket Sell in GDS
2. ✓ Amadeus - step by step
3. ✓ Sabre - step by step
4. ✓ Galileo - step by step

Step 1 - Starting point

Question

No linked steps

New Ticket Sell in GDS

- | | |
|---------------------------|--------|
| 1. Amadeus - step by step | Step 2 |
| 2. Sabre - step by step | Step 3 |
| 3. Galileo - step by step | Step 4 |

Step 2

Solution

Parent step: 1

Amadeus - step by step

According to scenario, please follow the below guidelines:

a) In the existing ticket the requested change is not permitted

any of the ticket rules does not allow reissue (changes not permitted, destination change not allowed, stop over not allowed, max stay regulations, etc)

original ticket is changeable and you have offered customer a rebooking, but customer thinks this is too expensive and is looking for a new ticket, either on same flight or different flight/airline:

1. Clone the existing PNR's passengers' details using command **RRP**.

- The name of the passenger(s), phone number, e-mail address, remarks with order information will be copied.

2. Use FXD command to view the best available connections:

FXDLON/D23DECKRS/R,UP

Where:

LON is airport of departure,

23DEC is the date of the departure,

KRS is the destination airport

To find ONE WAY cost for all the passengers(according to their type as well) in the PNR with all the airlines, including negotiated fares:

FXDLON/D23DECKRS/D30DECLON/R,UP

To find ROUND TRIP cost for all the passengers(according to their type as well) in the PNR with all the airlines, including negotiated fares:

FXDLON/D23DECKRS/D03JANLON//ASK/R,UP

To find ROUND TRIP cost for all the passengers (according to their type as well) in the PNR with the SPECIFIC airline(SK), including negotiated fares. If you need connection with more than one carrier add following airline codes after a comma (//ASK, LH)

Example

```
FXDLON/D23DECKRS/D03JANLON//ASK/R,UP
1 RECOMMENDATIONS IN GROUP 1(SEK 4117)

----- RECOMMENDATION 1 OF 1 IN GROUP 1 (SEK 4117)-----

```

If no upsell needed, just enter command **FXU1** to book and create TST

3. You are ready to create an Add on cart in Edvin.

- Preferable stay on the call until the payment is fulfilled.

4. Once the payment is done, **RT** the PNR, and you will see that the segments are already added.
5. Add the ticketing time limit with the command **TKOK**.
6. Add the email and phone number of pax using the **SSR CTC** smartflow in the new PNR.
7. Save everything with **ER**. The TST will be saved as well.
8. Fulfill Edvin actions as per general routines - for details check [here](#).

b) If the existing ticket does not allow name changes / corrections and the passenger wishes to travel:

1. Clone the existing PNR's segments using command **RRN**.
 - The name of the passenger(s) will not be cloned but phone number, e-mail address, remarks with order information will be copied.
2. Insert the correct name if known (or skip this part until the customer will send the correct documentation and pay the available price at that time).
 - Use the command: **NM1SURNAME/FIRST NAME Title**

For more details on commands explanation check [here](#)

3. Use **FXD** command:

FXDLON/D23DECKRS/R,UP

Where:

LON is airport of departure,

23DEC is the date of the departure,

KRS is the destination airport

To find ONE WAY cost for all the passengers(according to their type as well) in the PNR with all the airlines, including negotiated fares:

FXDLON/D23DECKRS/D30DECLON/R,UP

To find ROUND TRIP cost for all the passengers(according to their type as well) in the PNR with all the airlines, including negotiated fares:

FXDLON/D23DECKRS/D03JANLON//ASK/R,UP

To find ROUND TRIP cost for all the passengers(according to their type as well) in the PNR with the SPECIFIC airline(SK), including negotiated fares. If you need connection with more than one carrier add following airline codes after a comma (//ASK, LH)

Example:

```
FXDLON/D23DECKRS/D03JANLON//ASK/R,UP

```

If no upsell needed, just enter command **FXU1** to book and create TST

4. You are ready to create an Add on cart in Edvin.
 - Preferable stay on the call until the payment is fulfilled.
5. Once the payment is done, **RT** the PNR, and you will see that the segments are already added.
6. Add the ticketing time limit with the command **TKOK**.
7. Add the email and phone number of pax with commands:

APM-phone number

APE-e-mail address
8. Add the email and phone number of pax using the **SSR CTC** smartflow in the new PNR.
9. Save everything with **ER**. The TST will be saved as well.
10. Fulfill Edvin actions as per general routines - for details check [here](#).

c) If the passenger wishes to add additional travelers to the same trip.

either adult (ADT) passengers (person over 12 years old)

either child (CHD) passengers (person over 2 years old)

***for adding an INF passenger check the relevant process [here](#).**

1. Clone the existing PNR's segments using command **RRN**.

- The name of the passenger(s), phone number, e-mail address, remarks with order information will be copied.
- If you need to have a different amount of seats then in the original PNR, use command **RRN/3**, where 3 is the number of passengers you will add.

2. Insert the names if known(or skip this part until the customer will send the correct documentation and pay the available price at that time).

- Use the command: **NM1SURNAME/FIRST NAME Title**

For more details on commands explanation check [here](#)

3. Use **FXB** command:

To find the best available price, including negotiated fares:

FXB/R,UP

To find the best available price, including negotiated fares, with one piece of baggage included:

FXB/SBF-1/R,UP

Example:

```
FXB/R,UP/SBF-1

```

3. You are ready to create an Add on cart in Edvin.

- Preferable stay on the call until the payment is fulfilled.

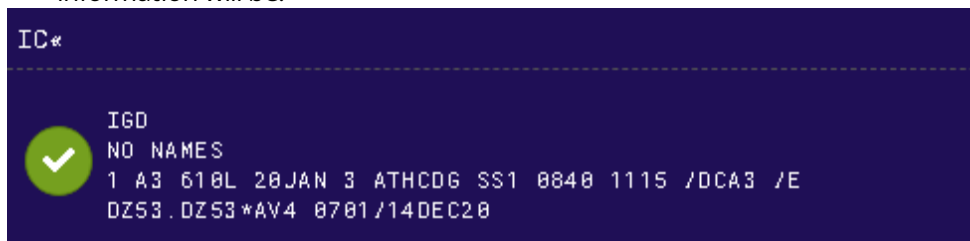

4. Once the payment is done, save the price with the command **PQ** or by pressing the button Save Price:

5. RT the PNR, and you will see that the segments are already added.
6. Add the ticketing time limit with the command **7T-A**.
7. Add the email and phone number of pax using the SSR CTC PFkey in the new PNR.
8. Save everything with ER. The PQ will be saved as well.
9. Fulfill Edvin actions as per general routines - for details check [here](#).

b) If the existing ticket does not allow name changes / corrections and the passenger wishes to travel:

1. Inform the customer about our minimum fee for the New ticket Sell, so that he/she is aware before we start proposing alternatives.
 2. Clone the existing PNR's passengers' details using command **IC**.
- The name of the passenger(s) will not be copied but itinerary, phone number, e-mail address, remarks with order information will be.

3. Hence, you can use WP command or other pricing commands if the same booking classes are still available, just with the correct cost for the current date.

However, if the original RBD is no longer available (no confirmed status of the segment)

```

5. Add the passenger's name, using the command:

For adult: -SURNAME/NAME Title,

For child: -SURNAME/NAME title *DOB DDMMYY

Then press 6 your initials and ER to save the information

For more details on commands explanation check [here](#)

6. RT the PNR, and you will see that the segments are already added.

7. Add the ticketing time limit with the command **7T-A**.

8. Add the email and phone number of pax with commands 9-phone number and PE¥e-mail address¥

9. Add the email and phone number of pax using the SSR CTC PFkey in the new PNR.

10. Save everything with ER. The PQ will be saved as well.

11. Fulfill Edvin actions as per general routines - for details check [here](#).

Step 4

Solution

Parent step: 1

Galileo - step by step

According to scenario, please follow the below guidelines:

a) In the existing ticket the requested change is not permitted

any of the ticket rules does not allow reissue (changes not permitted, destination change not allowed, stop over not allowed, max stay regulations, etc)

original ticket is changeable and you have offered customer a rebooking, but customer thinks this is too expensive and is looking for a new ticket, either on same flight or different flight/airline:

1. Clone the existing PNR's passengers' details using command **REALL**.

- The name of the passenger(s), phone number, e-mail address, remarks with order information will be copied.

The screenshot shows a flight rebooking interface. At the top, there are two flight segments: "1. 1L [input box] / [input box] AMS" and "2. 1H [input box] / [input box] JMR". Below these segments is a row of seven blue buttons with white text: "*ALL", "*P", "*FOP", "*NP", "*EM", "*DI", and "*RV".

2. Use the command **FS**,

for example:

FSJFK25MAYLON10JUNJFK

Where

FS is Fare Shopping command

JFK is the city of departure

25MAY date of outbound trip

LON is the destination city

10JUN return trip departure date

JFK return trip destination

Results will be shown as follows:

1-

FQI - 51-3

P1 ADT G 04MAY22 * USD 538.87 /

P2 ADT G 04MAY22 * USD 538.87

4. Add the ticketing time limit with the command **T.T***

5. Add the email and phone number of pax with commands

P.city of passenger P*phone number(example: P.LONP*447964681900)

MT.e-mail address(example: zac.nixon2508@gmail.com)

6. Add the email and phone number of pax using the SRCTC Smart Button in the new PNR.
7. Add a ghostline via Smart Button as well.
8. Save everything with **ER**
9. Fulfill Edvin actions as per general routines - for details check [here](#).

b) If the existing ticket does not allow name changes / corrections and the passenger wishes to travel:

1. Inform the customer about our minimum fee for the New ticket Sell, so that he/she is aware before we start proposing alternatives.
 2. Clone the existing PNR's passengers' details using command **RESALL**.
- The name of the passenger(s) and the other data will not be copied but the itinerary will be.

```
1- RESALL +
1. AM      8 N  21MAY LHRMEX HS2  2230  #0425  0          E SA  1
2. AM    330 N  22MAY MEXPVR HS2  0715   0856  0          E SU  1
