Solution

Parent step: 2

Phone handling

Genesys phone

All the communication with the customer is handled through designated Genesys queues. We are always able to identify the caller by the queue name: "TUI-DE"

We always have to answer with the opening script:

"Hello this is Gotogate in partnership with TUI , my name is ..."

Step 11

Solution

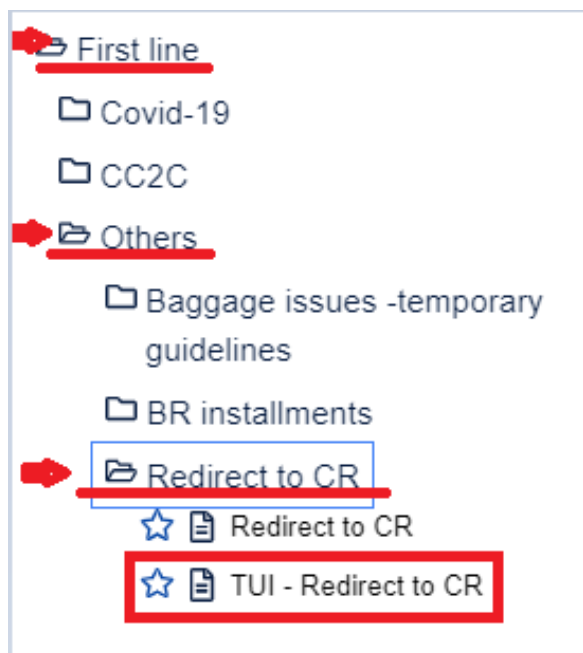

Parent step: 3

Redirect to CR

We can refer a customer to contact our CR Department when there is a need for compensation or if we need to refund an amount paid by the customer by receiving a receipt.

For any other queries where the customer is complaining about our service, fees, processes, etc we should not refer to a complaint. It's up to the customer how to proceed.

Follow the standard process, but when escalating the B.com phase 1 order related case, always remember to send the no-reply email with the title: **'TUI - Redirect to CR'** through Edwin that can be found under "First line - Others - Redirect to CR" folder:

For more info regarding the whole process check [here](#).

Step 13

Solution

Parent step: 2

Email handling

Genesys email

Use the ETG canned responses for the email handling.

Genesys contact email address for TUI customers : customerservice@flightsontui.gotogate.support

Etrack

Use the ETG etrack templates and always make sure that the correct brand (*Gotogate in partnership with TUI*) is selected.

Standard routines apply to scenarios when the email needs to be send from etrack.

Edvin templates

Use the standard ETG Edvin templates. The only exception is the "*TUI - redirect to CR*" template. For more details refer to the chapter : Redirect to CR.

The correct branding is automatically selected in all the Edvin templates for TUI orders.

Step 14

Solution

Parent step: 2

Chat handling

When searching for contact details on our page or in MyPortal, the TUI customer can reach our Customer Service also via chat.

The handling of TUI chat shall be based on standard [chat routines](#) in terms of channel and standard [TUI routines](#) in terms of order approach. [ETG scripts](#) shall be used for handling.

You may be asked to handle a mix of TUI and ETG chat interactions. Therefore always pay attention to the queue from which you receive an interaction - "ETG TUI English Chat".

ATTENTION: Whenever chat is transferred to another department, it is agents responsibility to review previously exchanged messages and *Interaction details* in order to retrieve the order reference number and the customer's request. This information shall not be requested again, unless there is something missing in the accessible details.

For TUI we support chat via the translation widget in Genesys as per standard chat routines.

Step 15

Redirect to FL - Baggage/seating claims

Baggage and seating claims are no longer reviewed by Customer Relations, instead those types of claims are handled by First Line. Do not refer customers to the Customer Relations contact form.

Follow the standard process, but when escalating the B.com phase 1 order related case, always remember to send the no-reply email with the title: ***TUI - 'Redirect to FL Baggage/seating claim'*** through Edwin that can be found under "First line - Others - Redirect to CR" folder:
