Step 4

 **Solution**

Parent step: 1

Cancellation

The claim task has been moved to the SL team as of November 5, 2024.

Attention! - In order to make sure which of the steps you need to follow, please follow the guidelines as mentioned [here](#), where the exceptions and the rest of the general handling are mentioned.

Voluntary Cancellation

The guidelines below refer ONLY to Tripstack bookings issued after 11Jan24.

System	Allowed to contact airline?
Tripstack issued until 19th October 2022	NEVER
Tripstack	Yes
Travelfusion	Yes

ATTENTION: Modifications are possible until 4 days before departure.

All tickets are **non-refundable**.

Check first if the cancellation request is part of the "[exceptions](#)", if not then please proceed with modifying the order and sending the appropriate cancellation confirmation email.

In case the customer insists on cancelling the booking even without refund you can apply the voluntary refund request through this [form](#). Remember to add an explanation for the reason for refund in the "**Comments**" section to make clear request.

Any request made through this form is **NOT informative** and any action requested will be processed from TB team.

Void/ 24h rule:

In general void is **NOT allowed**.

For some markets such as US it is mandatory to offer full refund for 24h. Since it is a legal requirement, we should be allowed to proceed exceptionally, after contacting TB and getting authorization in written.

Name and date of birth corrections are NOT possible at the moment to be processed through myTUI. Until further notice all the name/DoB correction requests should be sent to gds@tui.be, attaching the relevant document.

NACO: **Not** possible on the **same calendar day** of the departure. For all the rest of the scenarios send to gds@tui.be.

DOB: Send an email to gds@tui.be. For a request within 24 hours of the departure, you may proceed with the request to the email address but never guaranteed. Alternatively for prompt assistance, please refer the passenger to the airport.

Name change/ ticket transfer is not possible.

ATTENTION: For any other request, modifications are possible until 4 days before departure.

Add infant/ child or change type of passenger from INF to CHD and CHD to ADT:

Not possible to cancel and rebook with wrong passenger type. As an exceptional process, we can contact TUI through gds@tui.be, attaching the document with the passenger's details in order to be added in the booking by TUI.

TUI offers full refund for when flight change is more than 3 hours for short-, and medium-haul and more than 5 hours for long-haul.

Short-haul: A short-haul flight is any direct or non-stop flight that flies anywhere under 3 hours.

Medium-haul: A medium-haul flight is any direct or non-stop flight with a flight duration of between 3-6 hours.

Long-haul: A long-haul flight is generally any direct or non-stop flight that has a journey time of between 6–12 hours.

- Currently it is **ONLY** possible to accept the alternative flights through [myTUI](#).
- If no alternative at all is provided by the carrier, offer to the customer only full refund.
- If the alternative provided causes misconnection, offer to the customer only full refund.
- As providing alternatives for involuntary rebooking is not possible through [myTUI](#), we need to create a new reservation with all costs applied for the flight that the customer will eventually accept. To check the steps on how to create new ticket, please check [here](#). **ALWAYS remember to link the new PNR created in Edvin as it is important for the rest of the procedure.**

ATTENTION:

In case the new flight offered is more expensive, the customer has to pay the fare difference between the new ticket and the old one. If TUI has offered 1 valid alternative, they will not cover any fare difference and ETG as an intermediary is also not responsible to cover this cost.

For any ancillaries added in the original booking, contact the carrier to ask how to proceed.

Before taking any action please calculate any fare difference between the old ticket and the new and charge the customer. Once the customer pays the respective amount, you may proceed with the new booking and the cancellation of the old one to us.

Note that the template "TUI SC Alternatives for 2nd time" has been created specifically for such scenario, when a fare difference exists, and we need to charge it.

For the 2nd alternate, the FF/call/chat/email team will need to redirect this volume to the Support team to handle any of the next steps, including VAN creation etc.

To calculate the fare difference follow the steps below:

1. Confirm with the customer the new flights date and time.
2. Start creating the booking on TUIFlybe website. For any ancillaries added in the original booking, contact the carrier to ask how to proceed.
3. Insert in your errand the new ticket value and keep the value of the baggage noted separately. Convert both amounts on the customers currency.
4. Go back in Edvin and check the "Air amount" that the customer was charged for the original booking.

> Summary

#	Product	Reference	Amount
1	Air / Tripstack	  	392.26 AED
2	Seating/seatmap	  	20.00 AED
3	Wallet Payment Method		0.00 AED
4	Total amount		412.26 AED

5. Calculate the fare difference by deducting the new ticket value with the original ticket and the result from this deduction will be the fare difference that the customer will have to pay.

For example:

New ticket value: 100,00 EUR

Old ticket value: 80,00 EUR

100-80=20,00 EUR will be the fare difference

- If there are no ancillaries, send a payment link to the customer with the value of 20,00 EUR.

6. Create Add on cart with the amount the customer has to be charged and send the email to the customer, by using the template "*TUI SC Alternatives for 2nd time*". For more information on how to create Add on cart please check [here](#).

7. After the customer pays, proceed with the issuance of the new ticket. In order to proceed with the issuance of the new booking you need to create the VAN card for the entire value of the new amount. For more information on how VAN card can be created, you can check the page "[Create VAN card](#)".

8. Change the status of the order as per the normal process and link the new PNR in Edvin.

Refunding the original ticket value after the issuance of the new due to SC- second alternative provided.

After the new ticket is issued, refund the original through the refund [form](#). Follow the steps to apply for full refund to us.

TUI offers full refund for when flight change is more than 3 hours for short-, and medium-haul and more than 5 hours for long-haul.

Procedure for Handling Involuntary Refunds

1. Document Verification in Edvin: The FL/SC agent is responsible for reviewing Edvin's documents to ensure that an involuntary refund is authorized in accordance with policy guidelines.
2. Deadline Check
 - Verify if there are any specific deadlines associated with processing this refund.

- If yes, and it is close to the deadline as per airline policy, or SSR, or guide (*within 4 hours of the deadline*), then the agent should **prioritize the refund and manually handle the refund.**
- If no deadlines are indicated, proceed with the following steps:

3. Handling Based on Original Travel Time:

- If Original Travel is **More than 4 Hours:**
 1. Update the Modify button accordingly, allowing SL to assume the case.
 2. Ensure any applicable waiver codes are documented clearly in the errands.
- If Original Travel is **Within or Less than 4 Hours:**

Follow the manual handling refund routine and handle it.

Manual refund handling

We can make the claim through this [form](#).

In order to send the claim to TB, follow the below:
