8. In order to inform the passenger of the rebooking cost, it is crucial to go through the entire process, until the actual payment page, to get the correct/accurate price before charging the customer and making the payment in the portal.

If customers have bought the "Flexible ticket" service, they will only need to pay us the fare/tax difference (not the penalty), and after the customer's payment (in case there is a fare/tax difference), we will pay the entire amount on TK Portal (along with the airline penalty). Therefore please check the cost separately if customers have Flexible tickets and exclude the Penalty.

9. Once we receive the customer's payment, proceed with the payment on the Portal.
