Please make sure to observe the current policy provisions on <https://www.lufthansaexperts.com/> at all times while following the instructions in this short guide specialized on exchanges amid the Covid-19 crisis.

Handling instructions for orders according Flight irregularities policy or INVOL rules can be found in the regular SPRK Manual in chapter 5.6.3.4-

1 FOC rebooking/reissue in accordance with the goodwill policy TWP 2101

First, display the booking on the reservation screen by searching the PNR or ticket number in advanced search. If the flights have been deleted from the PNR, the itinerary will be empty.

Use **Add Air** to add the new flight segments with new fare according to the current goodwill policy to the shopping cart.

The screenshot displays the reservation interface for a traveler named MRS JONA SMITH, born 10APR1991. The booking is for a round trip from Berlin (BER) to Zurich (ZRH) via Vienna (VIE) on July 21st and 30th, 2021. The itinerary shows four segments: BER-VIE (LH 6358), VIE-SKG (LH 6442), SKG-ZRH (LX 2581), and ZRH-BER (LX 978). The status of all segments is 'HK' (On Hold). The interface includes a sidebar with navigation options like TRAVELER, ITINERARY, and TRANSACTIONS. The top right features a toolbar with icons for various actions, including a red 'Add Air' icon. The bottom section shows transaction details, including the reference number 2205747140128 and the transaction date 12APR21 16:20.

2 Keeping a PNR active in Farelogix SPRK

This is only valid with the current goodwill rule allowing to postpone a journey to a later date, even without knowing the new travel date:

The same process applies as described on the eXperts website, but there is no need to enter a MEMO element in SPRK. After deleting the flights from the PNR, the PNR will act as a shell for future bookings.

Select the flights for deletion and click **<Delete>**.

At a later stage when the customer wants to do the reissue with new travel dates, **you can reuse this ticket by retrieving the old PNR**. Then follow the steps from the following chapter, depending on which TWP rule applies.
