

Tickets to/from/via Russia with Russian airlines:

Some customers refer to Russian law for a refund of their flight tickets in medical and/or death situations. If the airline refund the passenger we should do the same. We are however not obliged to refund the passenger and take the cost for such refund.

The backoffice refunds team will send a Refund Application (RA) to the airline, attaching the medical/death certificate. This is regardless if there is a waiver in the fare rules or not. We as a travel agency will have no impact on the airline's decision to grant or decline the refund application or not, therefore no refund should be promised to the customer when cancelling.

Important Note:

For **U6-Ural Airlines**, refund via BSP is not allowed unless we have authority from the airline or consolidator to submit RA. Failure to do so will result in ADM's.
