

The applicable cancellation service fee relevant to the selected cancellation reason can be checked via *Price list cancellation fee* tool directly in the Order view. In order to access the tool, you can click on the blue three dots icon in the 'buttons' line of the order view and select the tool, as shown below:

Alternatively use keyboard shortcut **Alt + P** in order to open the tool. Once you are in the tool, you have to select the applicable cancellation reason from the drop down menu along with the relevant passengers:

The tool will show you the total applicable service fees for the selected cancellation type and the total amount of selected passengers.

ATTENTION: Please note that the tool is set to reflect the general service fees exceptions, wherever the criteria can be filtered by Edvin configurations. Unfortunately due to the complexity of the waiving criteria for various scenarios, not all of them can be included in the tool. Therefore before you inform the customer about the applicable fees, always ensure that the particular order doesn't fall under any of the

exceptions listed [here](#) or the market itself is not governed by any exceptional rule (for local market pricelist check [here](#).)

The cancellation wizard run via *Modify order* button also shows the applicable cancellation service fee per selected cancellation reason and amount of the passengers.
At the last page of the wizard, the checkbox visible below will include the total applicable service fee amount:

Modify order - Confirm

Please confirm that the following tasks have been completed before proceeding with the refund:

☐ Added ghost line in GDS

☐ Closed all open cases in Etrack

☐ Cancelled segments in GDS

This refund case will have a fee of 60.00 EUR
