

FARE COMPONENT

Fare rules for cancellations may state that the penalty needs to be applied per fare component. The below guidelines will help you understand how to find the number of fare components in a specific ticket.

- **AMADEUS** 

Fare components can be checked in two ways in Amadeus

A. Fare calculation is visible in the ticket record.

Values highlighted with yellow on the below ticket record correspond to the fare components. Since there are just two amounts before the total NUC value, this means that there are two fare components.

```

B. FQN command

FQN command shall follow one of the below pricing commands:

1a) **FQP**

If you choose this way, use FQP smart flow:

- a. Fill in the ticket number:

Smart Flow

Running Smart Flow : FQP

Enter ticket number in the format XXXXXXXXXXXXX

080-3853604522

Back

Next

Stop

Command Page Output

Type a command 

Enter

```

1b) FXX/R,UP, + date of ticket issuance

If you choose this way, use backdate pricing command **FXX/R,UP, + date of ticket issuance**, for example **FXX/R,UP,28SEP21**

```
> FXX/R,UP,28SEP21
```

```
FXX/R,UP,28SEP21
```

```
* FARE BASIS * DISC * PSGR * FARE<SEK> * MSG *T
01 BFLXPOFO+* * * P1 * 7529 * *Y
02 BSTDPOFO+* * * P1 * 7183 * *Y
03 BSTDPOFO+* * * P1 * 6836 * *Y
*1-3*TICKET STOCK RESTRICTION
FARE FAMILIES: (ENTER FQFn FOR DETAILS, FXY FOR UPSELL)
*1*FARE FAMILIES: ECOFLEX
*2*FARE FAMILIES: ECOSTAND ,ECOFLEX
*3*FARE FAMILIES: ECOSTAND
```

2) Regardless of the previously used pricing command, use the command **FQQ + line corresponding to your ticket fare basis**. For example **FQQ2**:

```
FQQ2
```

```
02 BSTDPOFO+* * * P1 * 7183 * *Y
```

```
LAST TKT DTE 01OCT21/13:58 LT in POS

B. WPDF command

WPDF command shall follow a backdate pricing command, therefore:

- Use backdate pricing by typing the command **WPB + ticket issuance date**
- Type **WPDF** command to check the number of fare components, which will be shown by the number of rows. Each row corresponds to one fare component.

```
WPDF<

```

The result above shows that there are four fare components, each corresponding to a separate row. On the other hand, we have three different fare basis and two pricing units as indicated by PU 01 and PU 02 in corresponding rows.

ATTENTION: Don't get confused with MISCELLANEOUS SURCHARGES as they are not equal with a separate fare component. If such additional surcharges are included in the fare calculation, they will be shown as separate rows under WPDF command results, but they will not correspond to any fare basis. The below example shows two fare components:
