

Penalties and Fares

- If the customer has used their Flexible Ticket - the ticket is non refund regardless of the ticket rule.

Tax refund, Force Majeure and Schedule Changes as exceptions, see below:

Tax refund

Passenger always has the right to claim their taxes of the new tickets.

If passenger wants their taxes, send for tax refund, less our fee refund fee (no fee for infant), as a normal booking.

Force Majeure / Schedule Change

If the new flights are cancelled by the airline or other schedule change or Force Majeure, and the customer received authorization for full refund from the airline; we will send it for refund, less our refund fee, as a normal booking.

- If customer has rebooked their original ticket (no Flexible Ticket); check both original ticket rules and new ticket rules regarding cancellation.

Cancel according to rule	Cancel no refund - pax claims tax refund
1. Check the Edvin refund calculator. 2. If it does not work, continue with displaying the fare rules. 3. If the total cancellation penalty is higher than the base fare, inform the customer, that the ticket is non-refundable. (check the right column if pax wants tax refund) 4. If it's less than the base fare, inform about the penalty AND our cancellation fee in total. <u>Be careful of the domestic tickets excluding the taxes</u>, as in these cases the base fare may be less than the penalty + our fee in total, so no remaining amount will be left.	1. If according to the Fare Rules (penalties) the ticket is non-refundable, check what taxes will not be refunded 2. Check our cancellation fee 3. If our fee is higher than taxes left to be refunded, inform the passenger of the same (no refund) 4. If our fee seems less than the refundable taxes from the airline, use Modify Order --> Ticket rules - Taxes NOTE: To confirm if we have collected unused taxes (NSR), see here. The refund process is the same for NSR refunds. <i>If no notes in Edvin and R as status on eticket - then we have collected unused taxes.</i>

Since the first rule informs us that the ticket is non-refundable, there is no need to control the second fare basis since the strictest rule applies.

Be aware that sometimes the fare basis is stated per fare component, per direction or per segment. Then you need to read all rules and then apply per fare, direction or segment.

The airline fee should be converted (if needed) using the rate valid at the time of ticket issue.

Sabre: DC¥USD150/gbp/15may17

You can also use the click function in Sabre:

1. Click on PNR to the right and you will display this picture

The screenshot shows the Sabre command line interface. At the top, there's a command line with 'TYPE COMMAND HERE' and a list of function keys (F1-F11). Below this, a text area displays system messages: 'FORM OF PAYMENT DATA EXISTS *FOP TO DISPLAY ALL', 'PASSENGER EMAIL DATA EXISTS *PE TO DISPLAY ALL', 'INVOICED', and 'PRICE QUOTE RECORD EXISTS - SYSTEM'. The main display area shows a PNR summary for 'FRDEYTL00 OEYSTEIN MR'. It includes fields for 'Traveler', 'Phone number', 'Itinerary', 'Received from', and 'Ticketing time limit'. The 'Itinerary' section shows two flights: 'WIDERØES FLYVESELSKAP, WF 517' and 'WIDERØES FLYVESELSKAP, WF 547'. The right sidebar shows a 'Trip Summary' with details for the traveler and the itinerary. At the bottom, there's a 'HOME' button and a 'Send' button.

2. Press on PRICE QUOTES, ARROW DONE and the box, see picture below:

The screenshot shows the Sabre interface with the 'PRICE QUOTES' tab selected. The 'PRICE QUOTES' tab is highlighted with a red circle. Below the tab, there's a table showing the price quote for the PNR. The table has columns for 'Name', 'Type', 'Notes', 'Base Fare NOK', 'Equiv Fare GBP', 'Taxes/Fees/Charges', 'Total GBP', and 'Max OB/FOP Fee'. The first row shows the price quote for 'FRDEYTL00 OEYSTEIN MR' with a total of 275.20 GBP. The 'Total GBP' cell is highlighted with a red circle. Below the table, there's a section for 'TAXES/FEES/CHARGES & FOP' and 'BAGGAGE INFORMATION'. At the bottom, there's a 'Delete' button and a 'Refresh Price Quote' button.

Non Refundable rule (non-ref)

CANCELLATIONS

ANY TIME

TICKET IS NON-REFUNDABLE.

NOTE-

--

TICKET IS NON-REFUNDABLE/CANCEL/NO SHOW

In this case the ticket is a non-refundable ticket, no refund is permitted.

Since the first rule informs us that the ticket is non-refundable, there is no need to control the second fare basis **since most restrictive rule apply, unless anything else is mentioned in the fare rules.**

Partial Refund

According to some fare rules, a partial refund is permitted, see example below. For this to apply, the information regarding this has to be noted in both fare rules.

WHEN COMBINING NON-REFUNDABLE FARES WITH REFUNDABLE FARES-

1. THE AMOUNT PAID ON EACH REFUNDABLE FARE COMPONENT IS REFUNDED.
2. THE AMOUNT PAID ON EACH NON-REFUNDABLE FARE COMPONENT WILL NOT BE REFUNDED.
3. WHEN COMBINING FARES CHARGE THE SUM OF THE CANCELLATION FEES OF ALL CANCELLED FARE COMPONENTS.

Be aware that sometimes the fare basis is stated per fare component, per direction or per segment. Then you need to read all rules and then apply per fare, direction or segment.

- In cases of different fare rules you charge one fee, the highest, if that is mentioned in BOTH fare rules (see example below).

WHEN MORE THAN ONE FARE COMPONENT IS CHANGED THE HIGHEST PENALTY OF ANY OF THE CHANGED FARE COMPONENTS WILL APPLY.

- Different fare rules, in both nothing is mentioned about which penalty to charge --> charge both penalties in case there are two or more fare components. More information can be found [here](#).

If it is stated in the rule that cancellation fee is 180 EUR, our fee will come to that, see pricelist in Edwin.

Calculate the total cost in the passengers own currency.

Airline penalty in percentage

Sometimes fare rules say "CHARGE 50 PERCENT FOR CANCEL/REFUND."

The cancellation/refund fee amount is then 50% of the base fare, if nothing regarding taxes is mentioned. Sometimes the fare rule says 50% of the fare plus YR/YQ taxes, then the cancellation/refund fee amount is then 50% of the base fare and the mentioned taxes. **For more information on how to calculate the penalty if it is mentioned in percentage, click [here](#).**

How to calculate the price for a refund on different fare base stated partial refund on specific fare base

Check Fare calculation

```
BCN QR X/DOH QR CPT234.10MN X/JNB QR X/DOH QR BCN206.88NUC440.9¥  
8END ROE0.918404
```

Check NUC (GDS currency) for the destination where the farebase ends in this case CPT 234.10.
(Sometimes a price can appear after Q that is an extra tax do not calculate on that)
NUC times ROE to see the price in base fare currency.

To calculate partial refund:

Use FQD without issuing date to see price for a one way. Also check today's taxes.

Basefare on that including taxes minus penalty fee.

Use FQP script for a one way price and today's (current) taxes if necessary according to rule.

Cancellation fee waived for illness or death by the airline

Some airlines allow waiving of their fees in case of illness or death of a passenger or their family member.

Unless it is specified or the travel partner is a family member that can be proved, there is no guarantee that the airline will give any refund for the travel partner, even being in the same PNR.

Please inform passengers that they need to send in a medical/death certificate in English or in the official language of the airline if this waiver is applicable!

If we need to apply also for a refund for family members travelling together (if it's allowed by the carrier), then passengers must also submit a certificate of kinship in English or in the official language of the airline.

Below is an example of how airlines mention in the fare rules of their tickets that a medical or death exception is possible.

CANCELLATIONS

ANY TIME

TICKET IS NON-REFUNDABLE.

NOTE -

WAIVED FOR ILLNESS OR DEATH OF PASSENGER
OR FAMILY MEMBER. ILLNESS/DEATH WAIVER MUST
BE SUBSTANTIATED BY A VALID HOSPITAL/DEATH
CERTIFICATE.

For the detailed routine follow the instructions [HERE](#)

When sending to refund; use Modify Order in Edvin and choose "Airline fee".

On "Other info to BO" write YY waiver acc to rule"

Email routine:

Customer cancels against medical certificate/death certificate through the airline fare rules.

Cancellation by telephone

Cancel the booking according to the customer's wishes and follow Modify Order in Edvin and choose "CAirline fee" (On Other info to BO write "YY waiver acc to rule"). Also, send a cancellation confirmation from Edvin. The agent can refer the customer directly to etraveli.com/medcert as we need to get the consent handle sensitive information and share the information with the airline. Keep in mind that the certificate needs to be in English for us to send it forward to the airline.

The certificate ends up in category 160.7, which is handled by CR (CR will then change to category 120.12 which is handled by BO).

Cancellation by e-mail

Read fare rules and cancel the trip according to the customer's wishes and send cancellation confirmation to the customer from Edvin with template for waiver in rules. In email we will inform customer on how to send us the certificate via our website. The original email shall be permanently closed.
