FQBB	- Price lowest available
FQBBK	- Book lowest available.

FQBA	- Lowest price regardless of availability
------	---

YOU MUST FIRST DO 'FQBB' AND THEN 'FQBBK' – The system will not allow you to reprice and book without pricing the lowest fare first!

Note: If a name field is in the PNR the FQ command will automatically store the fare
This is called a '**Filed Fare**' in Galileo.

You will know you have a stored fare as this will come up:

**** FILED FARE DATA EXISTS **** **>*FF.** Alternatively you can do ***FF**

You then must check your filed fare is in **G** status '**Guaranteed Status**' if it is not then your fare is invalid and you will have to price again until it is in **G** status.

```
FQ1 - S1 03SEP15 47/AG
>FQBB
P1 MELO/LISAMS ADT G * AUD 189.00
```

HOW TO CANCEL FILED FARES *STORED FARES*

Multiple stored fares will attach to your PNR every time you price, when there are names on your PNR. You need to cancel the filed fares that you do not need before you will be able to take payment and issue in Smart Tickets.

FX1	- Cancel filed fare 1
FXALL	- Cancel all filed fares
