

General rules for Naco/Nach

!!!IMPORTANT!!!

General guidelines but no guarantees *Must double check Docs in Edvin*

- No middle name is needed in the reservation (DOCS needs to be inserted according to passport though if traveling to the USA)
- 1-3 letters as long as it doesn't alter the pronunciation and the first letter of first/surname is correct
- At least one of surname and first name (**within Europe**)
- Always ask for any relevant documents (passport, ID, etc) if mentioned in **Edvin docs.**, through Etrack and register the Etrack number in the register errand.
- When sending the Etrack Email to the customer make sure to follow the instructions [here](#) (select the market of the customer and “send & close” option)

When is it a name change vs. name correction?

This might differ from airline to airline, but we do follow some general rules:

• If changing to another person	Name Change NACH
• If the same person, but adding a middle name / last name/ changing the last name due to marriage and so on	Name Correction NACO

- Check in Edvin if it is permitted/necessary to change or correct the name.
- If it is multiple airline tickets or codeshare flights: Usually, it is not possible to make a name change or correction due to technical issues or due to the different booking systems. It is always a case-to-case policy, so the agents need to contact the airline unless otherwise mentioned Edvin Docs. This means that if there is no information in Edvin Docs, the agents need to contact the airline (validating carrier) in order to be informed about the policy.
- Name on the ticket has to be exactly as on the passport/visa when traveling to China/Australia/New Zealand/Korea/Japan.
- If possible; cancel against the fare rule (our voluntary cancellation service fee will be charged).

If less than 24 hours to departure, please check with your support team if it's possible to change or correct the name. For orders issued through GDS or Portals, where the flight is within 24 hours from the time the customer contacts us, we cannot proceed with any action for name correction. For LCC orders, it depends on whether the airline's website allows you to proceed or not.

Check-in product

If the customer has purchased the Check-in product and you must split them or make a new PNR, the Check-in product can no longer be used.

LCC booking

The name correction/change process for LCC can be found [here](#).

Please see Edvin documents for name correction and name change.

If a customer says they have been promised an exception from the airline:

- We call the airline for instructions
- Never charge our service fee for Name Change and /or Airline Cost for Name Change until our support has double-checked if it is possible.
- No need to call the airline to **check if it's ok to travel** with an error in the name. The helpdesk will **not** guarantee anything anyway.

How to handle Naco/Nach

Check airline information in Edvin documents if the FL agent can make the change directly in the GDS without contacting the airline.

- Always ask for any relevant documents (passport, ID, etc) as mentioned in **Edvin docs.** , through Etrack and register the Etrack number in the register errand.
 - When sending the Etrack Email to the customer make sure to follow the instructions [here](#) (select the market of the customer and “send & close” option)

Via phone:

We need to double-check the correct spelling of the name with the customer before we proceed or escalate the case to Support;

a. As per Edvin docs, if documents are not required by the airline but there is a NACO fee and/or our handling fee to be charged, send a payment link to the customer with the correct name mentioned in the message. Advise the customer to double-check the name before making the payment and ensure that you register the name in the errands.

b. As per Edvin docs, if documents are not required by the airline and there is neither a NACO fee nor a handling fee to be charged, send an email from Edvin. Use a blank template to reconfirm the name with the customer, register the name in the errands and send the case to Support.

Charge name change/correction fee if it is clearly stated what the airline's fee is. If not, inform the customer about our service fee and that additional charges will apply from the airline if naco/nach is approved. **For orders including INF passengers**, please check the related page [here](#).

-If we receive Naco/Nach requests and flight departure is within **24 hours (Ticket issued in our office ID)** and **72 hours (Ticket issued with consolidators)** from customer contact, refer the customer to the airlines. **Always make sure to check for exceptions in Edvin doc.**

If sending PL last payment date/time should be no later than 48 hours from sending, as long as departure is more than 48 hours. Before sending the Payment Link/MOTO to the passenger, please check the coupon status to be O/A and inform the customer not to check-in until receives the new ticket.

If less than 48 hrs before departure ONLY a charge in Moto is possible.

Adding the AP/9 line is no longer necessary; it should only be added when requested by the airlines.

Use " Template" from the register errand and then put it on the queue in order to send it to ticketing.

☐ DO NOT USE - only to be used by ticketing	
☐ EMD voucher issuance	(place pnrs where we need to issue EMD vouchers)
☐ Name Change and Add Infant only	With provider cost
☐ Sabre Only - Involuntary changes	Add short info: PNR/area/freetext in regards of sc reissues/ force majeure reissues

Ancillary post sales
CONFTASK - DO NOT USE
DO NOT USE - only to be used by ticketing
EMD voucher issuance
Name Change and Add Infant only
Sabre Only - Involuntary changes

Order Note/Queue Action Message

If the issuance of an EMD due to NACO/NACH is needed:

Add errand with Naco template to TKT, under "what kind of name change REISSUE, NEW TICKET", it should be noted to issue EMD for NACO penalty and then queue to **BOM TKT -->> Name change and Add infant only**.

Ancillary due to NACH/NACO:

Important! In case passengers have EMD (baggage) on the initial booking, always inform the passenger that the ancillary (baggage) might disconnect when changing the order due to name correction.

If EMD is not transferred successfully after the change, then the passenger will have to pay for it again.

Checklist for the Support Agent:

(See the step-by-step instruction in the [Shelf](#))

- If the detailed guidelines are stated in Edvin documents, proceed accordingly.

- If no guidelines or information is missing call or e-mail the yy to ask for authorization and procedure.
- NACO/NACH should be completed in the same PNR or should we create a new one?

Kindly clarify the following information with the airline:

1. If in the same PNR:

- Who does the name field update in GDS reservation, we or the yy?
- Should we reissue the ticket or issue a new one and refund the original(wrong name) ticket or first refund the original(wrong name) ticket and issue a new one?
- Is there any penalty from the yy? If yes, how should we collect it: as EMD, specific tax(e.g. DU tax), or on refund?
- Is any endorsement(ENDO BOX) required?
- Is the reissue urgent? Should we do it in a few hours, this day, or in a few days?

2. If a new PNR must be created:

- Should we issue a new one and refund the original (wrong name) ticket or first refund the original (wrong name) ticket and issue a new one?
 - [Naco: Scenario of refund of old ticket and then issuing a new ticket](#)
 - [Naco: Scenario of new ticket issuance and then refunding of the old ticket](#)
- If the current availability is not the same as on the original reservation, will the passengers pay the fare difference or will the yy reinstate the original booking classes?
- Continue with the questions from the first scenario.
- It is very important for the airlines to have the contact details of the customers. On that occasion please check the respective [shelf page](#) and add the email and phone number of pax using the SSR CTC smartflow in the new PNR.

Kindly note that before sending the payment link/MOTO to the passenger, please check the coupon status to be O/A and inform the customer not to check-in until receives the new ticket.

The support agent should check the coupon status as well before contacting the airline to request authority and sending the case to Ticketing.

If no information exists in Edvin documents ask the airline for written general guidelines and once received raise **UEDI Jira** to update the information in Edvin docs.

For details regarding update documents, please check the Edvin folder.
