

Kindly be informed that from now on, no service fees will be charged for customers who have booked a flight on **gotogate_kr** or **mytrip_kr** provided the below criteria are met on the order level:

1. Sold in market Korea (sites: gotogate_kr and mytrip_kr)
 2. One or more segment/s with carrier KE - Korean Air (Korean Air must be a validating carrier for at least one PNR)
 3. Issued via consolidator: Tidesquare
- PCC SELK138TF/UN3J
 - IATA 17300091

IMPORTANT for Multiple PNRs: The rule applies on order level and Korean Air (KE) ticket doesn't need to be necessarily issued via the Tidesquare consolidator. Korean Air (KE) stock tickets can be issued in any office unless there is at least one other PNR with any validating carrier issued via the Tidesquare consolidator.

The price list cancellation fee tool along with the final checkbox message in Modify order button flow has been updated accordingly and zero fees will appear for all cancellation reasons. No manual updates are required.

The Add-on cart in Edvin has been updated and the respective *Our fees* tab has been removed from the *Add-on cart* layout of the affected orders.
