Summary: conditions and procedures for Kayak US customers to cancel bookings within 24 hours for a full refund, including criteria, airline policies, and specific processes for voiding fees and verifying eligibility.

Kayak US- 24h Cancellation and Void Procedure

(booked via KAYAK only - now visible in Edvin)

For Kayak US customers, we will waive our fees in case the airline provides a full refund **in the case of a 24-hour cancellation and void.**

This is applicable under the following criteria (all must apply):

1. Cancellation completed within 24 hours from the time of payment.
2. Departure/destination or transit within the US.
3. The airline must offer a full refund as per Edvin's documents (no penalties).
4. The first departure date is at least 8 days ahead of the payment date. For example, if I book today, the 17th of December, the departure date should not be earlier than the 25th of December. If the departure date is the 25th of December, it can still be canceled for free; if it's the 24th of December, the 24-hour free cancellation does not apply.
5. Cancellation requests must come by phone or chat, as long as they are within 24 hours.

Attention! For cases where the airline provides a 24-hour cancellation but with a penalty (e.g., 24-hour cancellation with TAP), we will charge our service fee and the airline's penalty as per the usual process.

Please note we follow each airline's 24-hour cancellation policy. In the case of a multi-PNR order, we need to verify if each PNR is eligible for the 24-hour Kayak US policy. For example, if a customer has a one-way ticket from MIA-LHR (1st PNR) and LHR-BER (2nd PNR), only the first PNR is eligible for the policy. The 2nd PNR can be canceled, but our fee will be applied (not applicable for B.com orders).

For the 24-hour rule cancellation:

- Run Modify Order with the cancellation reason "24-hour airline rule."
- Make sure to write "Kayak US market 24-hour cancellation" in the errand.
- Follow the usual routine for 24-hour rule cancellation as described [here](#).

For Void cancellation:

- Run Modify order with the cancellation reason "Void", the cancellation reason has been configured to waive automatically our fee for the eligible orders.

Always check if the order is eligible for void automation.

The routines can be found below

[Step by Step - VOID Automation in Edvin \(Amadeus/Sabre\)](#)

[VOID automation for Portals booked through Tripstack, Farelogix, Amadeus NDCx](#)

For manual void of cases check the below guidelines
